## REPORT OF SUPERINTENDENT OF SCHOOLS

To the Superintending School Committee and the Citizens of  
Newport:

I herein submit my report of your school for the year  
ending February 1, 1933.

The census of April 1, 1932, found 263 boys and 256 girls of  
school age in town, of whom 332 are enrolled in the elementary  
schools, 66 in the high school, and around 20 in higher institu-  
tions of learning.

Ten elementary teaching positions have been maintained  
during the year with excellent results.

The following table gives the names of the schools, the  
names of the teachers, the weekly wages, and the number of  
children in each grade at the beginning of the school year.

Name of School and Teacher	Weekly Wages	Gde I	Gde II	Gde III	Gde IV	Gde V	Gde VI	Gde VII	Gde VIII	Gde IX	Total

Changes made necessitated that three new teachers be procured for this year, and time has proven that the choice of these was good.

The matter of teachers appearing on the grounds to organize and direct the play activities of the children during intermissions, which was mentioned in our last year's report, has been much better this year than last year, though there is yet a chance for improvement in some instances.

It may be seen by an inspection of the above tabulation that the teachers are carrying a heavy load besides the extra activities that we are requiring of them. This work they have faithfully performed with a cheerfulness that is commendable.

Our "Safety First" work has been incidental this year, excepting the work of the School Boy Patrol, sponsored by the A. A. A., and approved by Mr. Carson of the State Police.

The health work has been carried on by the teachers; consisting as heretofore of physical exercises, health chores, health talks, and instruction in the care of the teeth.

We have maintained five conveyance routes during the year, with one extra to continue during the winter.

After careful consideration by the school committee, and a conference with the parents of the children who attended the Gilman school last year, it was decided to suspend the Gilman school and to convey the children to the village schools. This plan resulted in a saving of \$538 50 to the town, and we believe a profit to the children.

In spite of "Hard Times" school savings account has increased \$538.05 since my last report, making the total amount in bank \$5351.72. As I have before stated, this is one of the most valuable of our extra-curricula school activities; and thanks to Mrs. Emily Merrill who is just as untiring as ever, in her efforts for its success.

The music director still maintains her interest in the welfare of her work, and every school markedly shows the results of her splendid efforts.

The increase in the number of students taking the agricultural course this year over last year, shows that our statement "That we believed this course to be a drawing feature for tuition students" was not amiss, as there are 19 taking the course of whom 11 are tuition students.

The home economics department seems not to have lost any of its popularity, there being 41 girls in the course this year. We feel that the value of this course as well as of the agricultural course is not appreciated by the citizens in general. And that few people realize how far reaching the influence of these courses is likely to be. The lessons learned in these courses will be used by the farmer and the home maker in every day of their lives; and what an advantage it will be to them to be able to put into practice some of the scientific thought on the subjects they may be working. And further still, having studied along scientific lines today, will aid and encourage them to study and try to keep abreast of the scientific thought of their day.

The high school is doing excellent work; every teacher seemingly being interested to make her department the best.

Such a condition cannot help but be productive of good results.

Much might be said of the value of education and of our duty to the rising generation to provide for them educational privileges. But it is not necessary. Every candid thinking and right minded person knows that if we do not provide these privileges we are robbing the children of their rightful heritage. An opportunity to procure an education has come to be a fixed heritage the value of which cannot be measured in dollars and cents, and we have no moral right to rob our children of this heritage.

Thinking that the citizens might be interested to know just how many cents of the tax dollar is expended in our educational department, and also the disposition of the school dollar, I am giving the following figures.

The part of the tax dollar used for school purposes is 37.58 cents.

The disposition of the school dollar is as follows.

For elementary schools	45.91 cents
For high school	40.63 “
For supplies	3.11 “
For books	1.74 “
For music	2.28 “
For superintendence	1.84 “
For insurance	1.96 “
For all other purposes	2.53 “
	<hr/>
	100.00 “

We have faith in the people of Newport that they will provide in the present, and in the future, as they have in the past, an amount ample to carry on our system of educational training. It is not too liberal a system. It is worthwhile.

In closing I wish to extend my appreciation and thanks for the kind consideration and help shown me by all with whom I have come in contact in the discharge of my duties.

Respectfully submitted,

FREDERICK M. NICKERSON,

Superintendent of Schools

## MR. CHAPLIN'S REPORT

Newport High School opened September 12, with an enrollment of 98 pupils. This enrollment is slightly smaller than usual due to the fact that our graduating class has only six members. Next year with a normal entering class, the school enrollment should be about 125 students. This increase in the number of students will increase the work of the teachers and should receive careful consideration in the plans for the school next year.

We have maintained our same courses of study this year on a slightly decreased scale notwithstanding a reduction in school appropriations of about 17.8% as compared with 1931. This has been accomplished largely through decreases in salaries of teachers and economies in purchase of equipment and supplies.

It is proposed that the appropriations for the schools this year be still further reduced to \$10,500. This, if voted at the annual meeting, will mean an additional reduction of 27.3%. It seems unnecessary to point out that these reductions cannot continue indefinitely without serious effect on our school system.

Our school is, I believe, in splendid condition. Our standards of work are high and our graduates are able to compete on even terms with the graduates of many larger high schools. At the present time we have about twenty-five graduates attending advanced institutions, twelve of them in standard four year colleges, and every one is doing very satisfactory work. Our graduates now can enter any college in the state, and most colleges in New England without taking examinations. This is a privilege which our graduates have not always enjoyed and one that we treasure very highly. We have not had a college or normal school failure from the members of our last five graduating classes. I should be glad to have you compare this with the records of similar high schools in other communities.

Our enrollment of tuition students is large, again this year, with thirty-four pupils attending from the surrounding towns

The towns represented are: Palmyra, Detroit, St. Albans, Plymouth, Dixmont, Etna and Burnham. With only three of these tuition students graduating, our income from this source should be even greater next year unless, because of possible changes in our school, it should lose its popularity with the students and citizens of our neighboring towns.

Our athletic program is the same as for last year with a more successful season in basketball, from the point of view of games won and lost. We are finding it increasingly difficult to finance our athletics but will make sure that all bills are paid before the end of the year even if it is necessary to curtail our athletic schedules in order to insure this.

We have been obliged to discontinue the regular printed issues of our school magazine "The Live Wire", but have substituted for it a smaller, mimeographed paper, published and mimeographed entirely by our students with the assistance and advice of Miss Pratt and Miss Miles. This change will represent a saving to the business men of Newport of about \$200, who have, through their advertising in previous years, made the publishing of this magazine possible.

Our annual speaking contest was held December 21, and was, I believe, a credit to the school and to the community. The selections were all thoroughly memorized and were delivered in a very creditable manner.

Our school play is in the process of preparation and should be ready for presentation sometime in March. Because of the small senior class, some of the parts will be taken by Sophomores and Juniors.

I believe that the above information, together with the special reports which will be made at this time, cover in a brief way the activities of our school for this year and I present this as my sixth annual report as Principal of Newport High School.

Respectfully submitted,

JOSEPH B. CHAPLIN,

Principal

## REPORT OF LIBRARIAN OF THE NEWPORT PUBLIC LIBRARY

The year just ended shows that the circulation of books has steadily increased which assures us that the citizens of our town have an interest in the library and it is also pleasing to state how great an interest is being manifested in the reading of non-fiction.

We have classified and added to our shelves 224 volumes and withdrawn as useless 89 leaving us with a total of 4,256 volumes.

This past year the library has received from the "Newport Woman's Club" a check for \$25. with which to purchase books and later they sponsored a community food sale and the proceeds \$33.63 was presented to the library for the same purpose and with this money it was possible for the library to buy many more really worthwhile books than would have been possible with only the town appropriation.

Sixty-four books mostly non-fiction, were presented to the library by Mrs. Elsie Foster and her mother Mrs. Adams, and Mrs. Joan Briary also gave the library a large number of valuable books.

To all who have made gifts to the library during the past year we would extend our grateful thanks.

The library has been open every Wednesday afternoon and Saturday evening of the year at the usual hours.

## RECOMMENDATION OF THE BUDGET COMMITTEE

Your committee, after having made a careful study of the several departments of town business, feel that, if you will comply as nearly as possible to the recommendations herewith attached, a very considerable saving will be effected in taxes, which will surely be appreciated.

The Road and Bridge, Town Charge and Support of Poor accounts have been carefully adjusted, with economy as the watchword, both by the committee and your Board of Selectmen, with the result of reducing these departments to the minimum that will be required, altho a few changes may be necessary, after the State completes their road program for the year. It may effect the Three Town Act, Five Times Act and State Highway maintenance funds.

We believe that, at this time, we should make some specific efforts toward reducing our fixed debts, and therefore recommend an appropriation of \$2,000.00 to be applied on School House Loan, which we sincerely hope will meet with your approval.

We have made a study of and would recommend a consolidation of town departments where the same would effect a very material saving in the cost of town government. This matter should be considered at the annual meeting.

As a further economy measure, we would recommend the cutting out of one half of our electric lights for the year, thereby reducing our lighting expense by approximately \$600.00.

If our appropriations can be kept within your committees recommendations, the tax rate for the ensuing year should not be over 30 mills, based on last years valuation.
