## MAYOR'S ADDRESS

---

**Members of the City Council and Citizens  
of the City of Lewiston:**

This is the beginning of my fifth consecutive term as Mayor of Lewiston and my sixth in all, for I served one year in 1914. For this great honor I wish to thank the good citizens of Lewiston for having placed their confidence in me. I shall do my very best to return this confidence and compliment by giving to the citizens of Lewiston a good and sound business administration. One that every citizen shall be proud of.

This cannot be done unless I have the cooperation and support of every one of you, Gentlemen of the Council. Remember that when you announced your candidacies, you made the promise that you would support me in my program. As you and I have just taken oath, that we shall as city officials perform our various duties to the best of our abilities, it is now incumbent upon us to fulfill those promises.

During the last Municipal campaign our opponents searched every nook and corner for some defects in the administration of our Municipal affairs, or some political corruption. Nothing was found by which a political issue could be made. The only thing that could be said was — time for a change from top to bottom — but no reasons given, except that our tax collector was overpaid and that the offices of our treasurer and tax collector should be combined. By comparing with other cities it was found that these two offices were not an over-expense to the city. For example, Rumford, Maine, a small town, having a valuation of \$7,406,360 — taxes collected are \$326,453—The salary of the tax collector in 1928 amounted to \$5,653 and his pay for making taxes and posting warrants in the town and corporation was \$447. This makes a grand total of \$6,000 which the Rumford tax collector received during the past year.

Compare this with Lewiston's valuation of about \$35,000,000, the amount of taxes collected in 1928 was \$1,026,283. The amount of salary paid the tax collector is \$4,056. From this he paid out about \$1,200 for assis-

tants and the serving of papers. On the front page of the Lewiston Evening Journal of March 2, 1929, there appeared a political advertisement stating that for the past four years (which was the beginning of my service as mayor) the expense of the City had increased \$129,641.18. Very true!

Did not the Chamber of Commerce and hundreds of merchants advocate the building of the Sabattus road? Which is now completed and cost the city about \$73,000 and which the people had been asking for years past. Did not the Chamber of Commerce and thousands of tax payers and all auto owners who do all the transportation service of to-day, ask for snow removal, not only in the city proper, but also in the country roads?

It took over thirty thousand dollars worth of first class equipment to do that. Did we not motorize our highway department? Did we not continue the building of the Jepson Brook sewer, which project was begun by me in 1914, but for some unknown reason the work was dropped until I again resumed its construction in 1925. Several thousand dollars have already been expended for this project. No one knows better than the writer of that political advertisement that if the construction of this sewer had not been started, the State at that time threatened to build it at a cost to the City of about \$300,000. There are several other items, too numerous to mention, but the above brings an amount well above the \$129,641.18 and all this is above the usual yearly work performed in the city.

In spite of all this was not the tax rate, in 1925, 32 mills and today it is 30½ mills? They said that the Gulf Dam did it. Very well! After paying the State and County taxes there is left to the city about \$42,000. Now, if we have reduced the tax rate by 1½ mill this represents about \$45,000.

I believe that the citizens should take in consideration what is being done with their tax money. Are they having sufficient permanent improvements? Are they paying an excess tax rate? No! The tax payers of Lewiston are fortunate indeed in having so low a valuation, also a gradual lowering instead of an increased tax rate, giving Lewiston the lowest tax rate of any city of its size.

We are having plenty of permanent improvements, beautified parks — a gradual improvement and increase in the number of electric lights — a large amount of per-

manent road and sidewalk construction — fine schools — a good fire department for the protection of life and property — good police protection — the best of water — a good drainage system — the gradual lowering of the valuation of our textile mills by half a million dollars — the lowering of the debt of the city by over \$55,000 this year — all bills paid and with \$69,000 left in the treasury.

Above all, the tax rate has decreased while the improvements have increased, which shows economy and sound business methods somewhere.

Since our opponents have failed to find any defect or corruption in the affairs of the city, it probably would be well to talk a little about political corruption and its relation to public operation. Isn't it a fact that from the flaring front pages of newspapers, reports seem to show that not only in this state but also in this country, this exists to a distressing extent. I shall not attempt to defend public service as being free from temptation or that it is 100 p. c. perfect, in whatever form of government. It is always a good idea for those who live in crystal houses not to throw rocks at a house built of stone.

After all is said and done, one of the inalienable rights of the voter is to attack and criticise the business methods of his government. It is a right which he often exercises to the fullest extent, probably from the fact that he is a proprietor and the feeling that being a taxpayer entitles him to something more than just an official receipt. I shall welcome at any time any just criticism that should be made against this government. I can say that I have so far been impressed by the devotion, the cooperation, the industry and high integrity of our public servants.

Let me now give you a resume of the work that has been accomplished during the past Municipal year in the different departments:

## HEALTH DEPARTMENT

A noteworthy fact in the report of Dr. L. J. Dumont, the health officer, concerns the decrease of communicable diseases as compared with former years. Two thousand three hundred and thirty-two persons were vaccinated against smallpox. This was due to the threatened epidemic of that dreaded disease. As a physician, I would

recommend that every citizen who has not been vaccinated, do so at once. One hundred and eighty-five children were immunized against diphtheria.

During the year there were 895 births and 557 deaths. The death rate per 1,000 in 1928 was 15.4 as compared with 19 p. c. in 1920.

In passing I might state that Dr. Dumont has been highly praised for his efficient work in connection with public health service, by the State and Federal health officials. I certainly wish to add my praise and compliments to Dr. Dumont and his efficient staff for the wonderful work accomplished.

### **POLICE DEPARTMENT**

The report shows a decrease in arrests. In 1928 there were 785 arrests, as compared with 1,898 in 1927. This spells efficiency. The same complicated traffic problems confront the city and police department as in the past. This department is doing its utmost in solving this most difficult problem. The new traffic code, which was adopted last fall, should be given a fair trial, and if enforced, relieves the situation to a great extent.

I wish to thank the Police Commissioners, Messrs. Pomeroy, Robbins and Gastonguay, Chief Ashton, Captains Picard and O'Connell, the Police Matron, Mrs. Irma Michaud, and all officers, for the efficient work of the Police Department and courtesies shown me.

### **FIRE DEPARTMENT**

This is one of our most important departments. It has to do with the protection of life and property. The exhaustive report of Fire Commissioner, Mr. M. T. Kerrigan, shows that there is no question about the efficiency of this department. This department owns and operates three permanent stations and one temporary sub-station. All the fire fighting equipment is now motorized. Much has been accomplished by the fire inspection and fire prevention programs. Many improvements and repairs have been made in the fire station. New circuits have been installed, 26 red lights have been added to show the location of fire alarm boxes at night.

I want to congratulate both Commissioner Kerrigan

and Chief Fortin for their splendid work and efforts in raising the efficiency of the Lewiston Fire Department to its present standard.

Special commendation is also given to the entire personnel of the department for their fearless fire fighting qualities.

## HIGHWAYS

Visitors entering Lewiston, over three principal highways, such as Main street, Sabattus road, and Lisbon road, are greeted by welcome signs. Many guide signs have been placed on our bridges and along various routes. More work has been accomplished by this department during the past year than ever before.

Forty-two thousand five hundred and forty-eight square yards of permanent streets were laid in different parts of the City, as compared with 35,642 square yards in 1927 — 2,200 feet of sewer were laid — 18 catch basins and nine manholes were constructed — 1,000 feet were added to the Jepson Brook sewer in 1928. Many thousand feet of sidewalk were also laid. This year's program consists in the construction of many thousand feet of permanent roads. This department is nearly all equipped with the latest models of trucks and tractors.

One new Lynn 10 ton tractor was purchased during the latter part of the year for heavy duty, especially on country roads. Two hours after our last heavy snowstorm all our streets and sidewalks were clean of snow.

My congratulations to Commissioners Stetson, Lemaire and Rivard, also to Superintendent Roy and his entire crew for their efficient work.

## WATER DEPARTMENT

Outside of taxes, this is the only department that produces an income to the City. The report shows the best financial showing of any previous year. The report shows that the department received for the year ending Feb. 28, 1929, \$94,716.76, as compared with, \$92,152.44, the previous year, an increase of \$2,564.32. The total expenses were \$59,159.78, leaving a profit of \$35,556.98, or \$4,000 better than the year previous. A very good showing indeed.

Eighteen extensions were made during the year at a

cost of \$5,614.96. There was 3,768 feet of pipe laid. Fifty-two new services, 101 services relaid — 95 cleaning of services — one sprinkler service and one hydrant were installed on Farwell street. — 1,104 feet of 12 inch cast iron pipe were laid on Farwell Street. This will be extended to Sabattus road and when completed, will give the residents of that section a better fire protection, which it now lacks.

I take this opportunity to compliment the superintendent, Mr. Fred Hayes, and the members of the office force, Messrs. Coulombe and Langelier, also the bosses and the entire crew for their efficient service to the city, because we know that these men may be called upon at any emergency, day or night — rain or shine, and all seasons of the year.

It is always a pleasure for me to speak with pride to all whom I meet of the clean and sanitary condition which exists at the city's pumping station. Every citizen should visit this plant.

### **POOR DEPARTMENT**

There is never an hour in the day when there is not a caller or a telephone ring from some poor unfortunate asking help from the city. Although a substantial increase was made in the 1928 appropriations, nevertheless there was a deficit of \$9,507.59, which shows that the laboring conditions have not improved over 1927. While I attended the Mayors' convention which was held at Augusta, February last, every Mayor made the same statement — that their poor department had overrun their appropriation.

I believe that some are taking an unfair advantage of the generosity of the city. I would advise that a thorough investigation be made of the list of those receiving aid; that only the deserving may receive help. Above all, no needy case should be turned away from our doors.

Many thanks to the clerk of the overseers of the poor, Mr. Edmund Roche, and the matron of the poor, Mrs. Hamel for their humanitarian work.

### **POOR FARM**

This is the refuge where our unfortunates, through illness and hardships of life, are taken care of, and given

a home that they may enjoy some of the comforts of life. There has been an average of 71 inmates the past year, an increase of 21 over 1927. Extensive repairs have been made, such as the renewal of the water pipes — the installation of six bath rooms — 450 feet of pipe were needed for this. There is now ample water pressure for fire protection. All inmates were furnished with paper cups and individual towels. Bubblers were also added. New farming equipment was purchased. The large barn and wood shed need repair and this will be attended to this year.

The 100 apple trees planted three years ago are in a good healthy condition. The sum of \$2,271.40 was received from the sale of farm produce. There was a deficit of \$239.78, largely due to the increased number of inmates.

Superintendent and Mrs Landry are doing their best to make life as happy as possible for the poor unfortunates, and both deserve the commendation of all the citizens, and mine, for their kindness and devotion to work.

## SCHOOLS

There is no need for me to again go over the question of the building of a new high school, for this has been shown by a committee of prominent citizens, members of the school board and government, that the time is not opportune for the building of a new high school.

At that time, also, the same committee announced that there was no immediate necessity for the enlargement of the present high school, but as it was reported in the newspapers that at the entrance of students in the Fall, the high school was overcrowded, I again took up that subject and I went personally before the school board and made the statement that if the board should recommend the enlargement of the present high school we should have to ask permission from the Legislature to issue bonds for \$125,000, because it was thought that it would cost over \$100,000 to do the work.

This permission has already been obtained. The enlargement of the present high school is now entirely a matter to be decided upon by the school board. If they believe that there is no need to enlarge the school — then it will not be necessary to issue bonds. I wish to make it clear that we can not issue these bonds for any

other purpose, except the enlargement of the school, and if the cost of enlarging would be less than \$125,000—then only that amount of bonds necessary would be issued.

I recommend that an appropriation be made for the repairs of Main Street Grammar school and the Coburn school on Bates street. I believe that certain repairs can be made to make these schools look like new, instead of going to waste as they are. I shall expect some information on this matter from the school board.

Now, \$117,394 were appropriated for common schools — \$58,259 for the high school — \$4,300 for the manual training school — \$8,000 for repairs. The gross expenditure for our schools was \$240,021.90.

My compliments to all members of the school board, Superintendent Bickford and his assistants; to all the principals and the corps of teachers for their untiring work, which has made it possible to raise the standard of our schools.

### **STREET LIGHT DEPARTMENT**

This department has made a wonderful showing during the past year, 16,155 feet of new wire were laid, 38 series goose-neck lights were installed — 47 ornamental electric light poles, each with 325 watt lamps, were installed on Park street from Main to Pine, and on Lincoln street, from Main to Cedar. — 25 red alarm box lights were also installed, making about 18,555 watts more than 1927. All this is taken care of by the 250 k. w. generator. The repairs which are needed on the west side of the brick wall of the wheel pit will be attended to.

I believe there are no other municipalities the size of Lewiston that can boast of such a low cost electric light plant.

Superintendent Lajoie and his men merit their share of commendation.

### **LIBRARY**

Every citizen should realize the variety of activities of our library. There has been an increase in circulation as well as attendance. A very large number of new books has been added. The building is in very good condition.

I wish to thank those who have contributed gifts, such as money, books, maps, magazines and daily papers.

I take great pleasure in congratulating Miss Barr and every member of the library staff for their excellent work.

### **BUILDING AND WIRE INSPECTORS**

The building and wire inspectors show by their reports that they have been vigilant in the performance of their respective duties.

### **TAX COLLECTOR**

Mr Ernest Audet, the tax collector, has made a very creditable showing, according to his report, in spite of the poor financial conditions prevailing throughout the year. Out of a commitment of \$1,070,489.80, there is a balance of \$13,384.95 uncollected.

Within a month or two, the tax collector will probably collect three or four thousand dollars, leaving about \$10,000 uncollected. While Mr. Audet was attending a Legislative committee session, one of the members of that committee made the statement that a tax collector who has a million dollar commitment and leaves an uncollected sum of about \$10,000 or less, is a mighty good collector, and I fully agree with him.

### **TREASURER**

This is the department in which the citizens are most interested. The total bonded debt of the City of Lewiston, Feb. 28, 1929, was \$1,293,000. The total debt, \$1,293,000, making the total liabilities, \$1,293,000. The total resources are \$429,788.38. The net debt Feb. 28, 1929, is \$863,211.62. The net debt Feb. 29, 1929 was \$926,200.67. The decrease in the city debt was \$62,989.05. Balance on hand, Feb. 28, 1929, \$69,865.29. This shows that after the payment of all our bills, which were contracted during the year, and reducing the valuation of our local mills by \$250,000, lowering the tax rate by half a mill, and reducing the city debt by \$62,989.05, we still have in cash on hand the sum of \$69,865.29.

The treasurer, Mr. Edward T. Goff, and Mrs Goff, his assistant have been very courteous to the citizens and attentive to their duties.

**RECOMMENDATIONS**

I would recommend the installaton of electric traffic signals at all points recommended by Chief Ashton, the installation of ornamental electric light poles, on Bates street from Main to the Upper Maine Central station, on Main street from Hospital Square to Frye street, the continuation of extension of 12 inch water main pipes, of which 1,100 feet have already been laid, this water main to begin at Farwell and Webster streets to near the Holy Family church, where there is only a six inch pipe starting from Ste Marie's hospital to its present destination.

After its completion it will furnish enough water to give all the necessary fire protection to that fast growing part of the city. Then will be the time to talk about sub-stations. If possible, the beginning of a similar system from the reservoir and extending towards the new American Electro Corporation plant on Lisbon Road, because, here also, the same condition prevails. There is only a six inch pipe, beginning near East avenue, on Lisbon road, to Crowley's Junction. This is far from being sufficient, for fire protection, to that part of the city, which is destined to become a very congested area on account of the erection of this new plant.

When this 12 inch pipe has been laid from the reservoir to this great plant it will furnish enough water for this great factory and plenty of fire protection to that locality.

I recommend the construction of a large sewer to begin at this great plant on Lisbon road and extend to the foot of Dill Hill, a distance of about three quarters of a mile. I promised this corporation that if they would locate here the City of Lewiston would furnish them with sufficient water and a good sewerage system. This sewer to be completed as early as the ground will permit, eventually will drain all that part of the city beyond Dill Hill.

I recommend the continuation of the Jepson Brook project, and to do as much of it this year as finances will permit. This sewer, when completed, will take care of all the water of the Garcelon Bog which is a source of Jepson Brook, and prevent the pollution which is now a menace to public health.

I recommend that the roof of the City Building be

repaired and made Water-tight — that the painting and repairing of the interior of the building continue as for the past four years. I would recommend that the citizens visit the Mayor's office and see the transformation made by a little repair and paint, also notice the new directory in the main entrance. It is a comprehensive guide to every room and hall in the building. Just look up your telephone directory book and see how the city's telephone numbers have been alphabetically arranged.

I recommend playgrounds, recreation parks, swimming pools and skating rinks. My plan for 1929 will be well organized playgrounds within our parks and school grounds. By removing children to allotted areas, other park areas are made more enjoyable to older people and those who wish to be passive and contemplative. Playgrounds prove a constructive solution to the protection of our children. It relieves the great worry of fathers and mothers of these children. The result of a well organized playground is better health, better morals and better citizenship.

I shall ask Mrs. William H. Newell to again supervise our playgrounds during the summer vacation. Mrs. Newell has certainly sacrificed a lot of her valuable time for this work. I take great pleasure in thanking Mrs. Newell in behalf of the citizens. There is no question but many lives were saved and serious accidents prevented by having the children under expert supervision, away from the streets and rivers. By the fine patronage to the many parks, wading pools and skating rinks which have been kept by the city during the summer and winter months. There is no doubt of their popularity.

I recommend continuation of the embellishment of our parks. More flowers and shrubbery will be planted than ever before. The City should be in a very presentable condition during the coming Summer. All the undesirable underbrush, cans and rubbish of all descriptions, which were seen at the Armory, will shortly disappear and within another year or two that locality will be one of the Beauty spots of the city. Some criticism has been made of the unsightly conditions there, but if the citizens would only pause a moment to remember what this place really was — nothing but a frog pond filled with stagnant water, a menace to public health.

It would have cost many and many thousands of dollars to fill in this unsightly gully with earth. In 1925

I asked the highway commissioners to have the city dump the rubbish there and today this frog pond has nearly disappeared. I expect that by the middle of this coming Summer it will be all filled, by this method. When this is completed it is proposed to grade the land and transform it into a beautiful park thus saving thousands of dollars to the city.

Because of its proximity to the Armory it will be an ideal place for our soldier boys to drill. I recommend the construction of an isolation hospital at the city farm, for the isolation, care and treatment of communicable diseases, such as scarlet fever, diphtheria and smallpox. For those patients who have no place to be cared for, and for large families to prevent the spread of these diseases.

Many times a family of several children is quarantined on account of a single case of communicable disease. All these children are kept in the house and exposed, and many times, instead of being quarantined for one month, they may be quarantined for two or three months, on account of some of the other children contracting the disease one after another. With this hospital, it will be possible to take care of such a case and fumigate that home and let the children go out, so that they can attend school, and the older ones may be able to work, as if nothing had happened, thus saving a sum to the city. Because, on many occasions the city has to pay the upkeep of these families during the quarantine period.

I recommend a building code, one that will be fair to all and one that will not be violated on all occasions. With such a code, it will be possible to prevent the building of undesirable buildings in certain localities.

I recommend that we pledge our support to the Lewiston Chamber of Commerce, by helping and cooperating with them in every way, and to attract new industries to locate in our City. In behalf of the citizens of Lewiston, I want to congratulate and thank the Industrial Committee of the Chamber of Commerce, composed of W. Scott Libbey, chairman, William B. Skelton, O. D. Mudgett, F. G. Peck and P. L. Bean, also President Frank S. Hoy, of the Chamber, and Secretary, Carl Bischoff, for undertaking an industrial survey of Lewiston, and for their untiring efforts in getting the American Electro Metal Corporation to locate here.

We should be proud of our active Chamber of Com-

merce, for it is certainly adequately taking care of the industrial and educational needs of our city.

I recommend to the highway department the continuation of the construction program for permanent streets and sidewalks.

In closing, I want to say a word of praise for the Snowshoe clubs of Lewiston. Although the City of Lewiston offered and paid the expenses for a banquet at the DeWitt Hotel to the Canadian and American Snowshoe officers, and furnished the City Hall and Armory, and decorated the city, for the International Snowshoe Convention, which was held here, Feb. 2-3, this convention was such a success that enough money was derived from the contests for the Queen of the Carnival, and Miss Auburn and Lewiston, that the snowshoe committee, after paying all their bills, had enough left, to turn over to Treasurer Goff, a check to cover all the expenses that Lewiston had paid. After this was done, they turned over to me a check for \$400, and I am to use this for the poor of the City.

At our last City Government meeting, a rising vote of thanks was extended to the officers and to all members of our different snowshoe clubs of the city. We hope that we will again have the pleasure of entertaining such conventions.

To the outgoing members of the City Government I wish the best of luck, and thank them for the work they have done for the City. I will always remember the good association we have had together. For the present City Government, I hope that harmony will exist within our ranks, and whatever we do, will be for the best interests of the City.

Let us show to the citizens that we will perform the duties laid upon us, to the best of our abilities. And to the citizens of Lewiston, regardless of any political affiliation, I extend to you, greetings upon inauguration day. My record will do the rest. Let us not knock our city, but let us learn to love it, give it our best thoughts, our best councils and let us be generous in our praise for our city, Lewiston!

I thank you, Ladies and Gentlemen.

ROBERT J. WISEMAN, Mayor.

# REPORT OF THE TRUSTEES OF THE LEWISTON PUBLIC LIBRARY

---

To the Honorable City Council of the City of Lewiston:-  
Gentlemen:—

Find herein our twenty-sixth annual report of the Lewiston Public Library, covering receipts and expenditures for the year ending February 28, 1929.

The report of our Librarian speaks for itself and we have the honor to submit the same for your consideration.

Respectfully submitted,

F. X. BELLEAU  
A. L. TALBOT  
A. M. GARCELON  
L. RAOUL LAFOND  
GEORGE E. RIVARD

Trustees.

---

## LIBRARY REPORT

---

To the Trustees of the Lewiston Public Library.

Gentlemen:—

I have the honor to submit the twenty-sixth annual report of the Lewiston Public Library.

In order that you may realize the variety of activities of our library work, I will tell you that we have selected, purchased and prepared new books for circulation, lent books over the delivery desk, sent post cards to delinquent borrowers, answered questions on a wide range of subjects in the reference department, checked and cared for 125 magazines and 21 newspapers in the reading room and worked for the schools and in the

Children's Room. A library report is a statement in detail of each of these services to the community. Every year we try to be more efficient, to improve the book stock and to extend the usefulness of the library to some class of citizens hitherto unreached.

### CIRCULATION

The work of a Library cannot be measured by circulation but as the charging system does allow a definite count of the books lent, we consider the year successful when the figures show an increase. This year we are again able to report a larger circulation than ever before with a gain of 3,048 over last year, since 104,345 books have been taken from the library by borrowers. A collection of books placed at the disposal of a reading club of ladies of the United Baptist Church, in charge of Miss Mattie Hinckley, has been given a circulation of 541. The number of French books taken was 18,297 a gain of 2,891 over last year.

The telephone is of important assistance in serving the public as books are reserved and renewed by telephone. An actual record kept the past three weeks shows a total of 165 calls outside the building and 186 calls to the library.

### WORK WITH CHILDREN

Since we have not the benefit of a trained worker in the Children's Room we are unable to report the splendid work which might be done by clubs and personal instruction in the use of books. The room has been kept attractive by frequent changes of poster decorations and many new books have been purchased. The story Hour Saturday mornings was in charge of Mrs. Annie Douglas until discontinued in May and in the Fall Miss Mildred Palmer told the stories from October to January.

During the Christmas season the room was especially attractive with decorations of red and green and a beautiful Christmas tree which almost touched the ceiling, the gift of Mr. John C. Flint, of Mechanic Falls. Through the generosity of a friend of the library, with other contributions, a Christmas party, managed by Miss Belleau, assisted by Miss Flint was held Christmas Eve,

when gifts tied with gay ribbons were given to an invited party of children who had no other prospect of a happy holiday.

### WORK WITH SCHOOLS

Reference work has been done for pupils from every grade from the first through High School and with college students. From September 27 to October 24 the Freshman Class of the High School came to the Library daily in groups of about twelve for instruction in the use of reference books. We have collections of books in 19 classrooms, 427 books having been sent to the schools. These are for the most kept in the buildings for supplementary reading but four teachers have reported a circulation of 637.

### ACCESSIONS

The number of books acquired by purchase and gifts has been 1912. Of these 159 are in the French language. A few titles of the most valuable new books are:

Lithographs of N. Currier & Currier & Ives  
by Warren Weaver

Fremont, the West's greatest adventurer  
by Allan Nevins 2 v.

Memories and Reflections  
by the Earl Asquith 2 v.

Abraham Lincoln  
by Albert J. Beveridge 2 v.

History of Architecture  
by Banister Fletcher

Genealogy of the Burbank Family  
by George B. Sedgley

### RENTAL LIBRARY

The rental collection continues popular and is the source of a welcome addition to the book fund. The receipts for the year were \$414.99 from which 209 books were purchased. Besides fiction two volumes of University Prints illustrating Italian Art were bought. In accordance with our policy of adding something of special value from this money, we have chosen this year the

new work on antiques by Wallace Nutting, "Furniture Treasury" in two volumes, considered one of the most beautiful and complete treatises on the subject.

### GIFTS

The record shows that 318 books have been presented to the library as gifts. These included valuable reference books as well as new publications. Mr. E. M. Lowell and Mr. E. H. Delano have provided National Geographic Magazines for binding in the two files and Mr. Delano has given Travel and Asia for binding. Mr. Lowell and Mrs. W. H. Hartshorn have helped save the library appropriation by giving copies of new books which would have been on the lists to buy. Mr. Delano also gave nine volumes of the O. Henry Memorial Award Prize Stories. Mr. Daniel H. Day contributed a sum of money to be spent as thought advisable but with the suggestion that it pay for binding National Geographic Magazines. The Manufacturers and Mechanics Library Association has given \$29. to pay for nine volumes of the Lineage Books of D. A. R. and have given Volume 3 of the Abridged Compendium of American genealogy-an encyclopaedic work of information on the first families of America.

The Mary Dillingham Chapter of the D. A. R. has paid for the binding of 72 volumes of the Lineage Books at an expense of \$39.60.

The stock of popular fiction has been increased by twenty five books from Mr. Herbert Hecker while Mr. Joseph Gallant gave 30 volumes of juvenile favorites for the boys.

### PUBLICITY

We are grateful to the Lewiston Daily Sun and the Lewiston Evening Journal for generous allowance of space for lists and book publicity. The Semi-Annual Bulletin has been issued regularly and is used by many patrons as a handbook in making requests for books. The Librarian has paid several visits to the schools making announcements of books of interest to the different grades.

In March the annual exhibit of the Stanton Bird Club

was held in the library when a most interesting display of specimens, books and pictures called many visitors to the building.

### LIBRARY MEETINGS

In June Miss Barr, Miss Belleau and Miss Flint attended the sessions of the Conference of New England Library Associations in Portland, June 26-29, and February 8 Miss Barr was present at the Mid-Winter meeting of the Massachusetts Library Association in Boston.

### STAFF

Miss Irma Belleau and Miss Lucy Flint continue as full time assistants, Miss Flint in charge of the circulation and Miss Belleau the cataloguing. Lillian Leger, A Senior at Jordan High School has been the afternoon assistant for the fourth year and Marguerite Côté, a Junior, has succeeded Frances Stevens as the evening assistant.

In April and June two students from Simmons College, Vera Fellows and Esther Millett, each worked practice periods of two weeks in our Library.

In closing I wish to express my appreciation of the loyalty and interest of Miss Flint and Miss Belleau upon whom the success of the library much depends and I thank the Trustees for so kindly considering my plans and for their encouragement and advice.

Respectfully submitted,

ANNIE LEONORA BARR

Librarian

# FIRE COMMISSIONER'S REPORT

---

Lewiston, Maine. March 1929

To His Honor Mayor Wiseman and Members of the City Council.

Gentlemen:

Herewith is submitted for your consideration my annual report as Fire Commissioner for the municipal year just ended. As in previous years, no effort shall be made to incorporate into this report the complete tabulation of the various fires, names of owners, causes of fires or amounts of losses and insurance on buildings and contents. Complete records of these are kept at Fire Headquarters, and are open to anyone interested or seeking such information.

My report of alarms and losses is rendered to you in this report, to conform with the Underwriters' yearly report, from January 1st, 1928 to January 1st, 1929, and shall be rendered as such in the future with your approval. In doing so you shall be receiving the same official figures that are furnished every year to the National Board of Fire Underwriters, and according to these figures our per capita loss is estimated and our rating or classification is established.

During the year the department responded to 449 alarms or calls; of this number 423 alarms were for causes of fire, and 26 were for calls such as for rescuing animals, defective sprinkler systems, assisting citizens to gain entrance to their homes and calls for life saving. Of these 423 fire alarms, 56 were box alarms, 340 were telephone alarms, 27 were still alarms and two were chief's calls. Two box alarms, and 19 telephone calls or alarms were false or unnecessary, of the 402 actual fires, 26 were in brick or stone buildings, 2 were in ironclad buildings, 260 were in wooden frame buildings, 17 were automobile fires and 97 were for other than building fires, such as forest, grass and dump fires.

The above alarms or calls distributed monthly are as follows, including all calls, life saving, assisting citizens, Etc;.

Month	Box	Tel.	Still	C. C.	Total	False
Jan.	2	27	1		30	
Feb.	5	42	2		49	4
Mar.	5	33	2	1	41	2
Apr.	5	42	1		48	
May	4	49	2		55	2
June	4	18	2		24	2
July	4	17	3		24	
Aug.	6	22	3		31	4
Sept.	2	13	6		21	2
Oct.	6	15	4		25	4
Nov.	4	35	2	1	42	2
Dec.	7	47	5		59	2
Total	54	360	33	2	449	21

## TABULATION OF FIRES DURING THE YEAR

### LOSSES

The losses occasioned by fire during the year, including buildings and contents were \$80,762.36 with a per capita loss of \$2.03 and show a remarkable decrease from the previous year, as compared with 1927, when the losses were \$142,816.50 with a per capita loss of \$3.98. This indicates a reduction of losses of \$62,050.14 from that of the preceding year.

This comparatively small loss and large decrease in losses is a matter of which the members of this department and the citizens of this city may well justly feel proud of. This most gratifying result can be accounted for in various ways. I believe that the promptness of the department in responding to alarms and the efficient manner that the work is carried on at fires, is the most convincing reason. The removal of dangerous hazards as the result of our system of inspections is another potent reason. The realization by the citizens of the importance of fire prevention and their splendid co-operation in this matter has also greatly contributed materially to the good results of the year.

There were nine fires where the losses exceeded one thousand dollars. The largest of these was the Bell Tire and Wedge Box Factory, with a total loss of \$39,866.94 including buildings and contents. The next largest was the Ridley Bros., property with a combined loss of approximately \$4,300.00 and the third largest was the pro-

perty owned by Mrs Eugenie Poulin on Oak St., with a loss of approximately \$3,456.72. The other six suffered losses between one thousand and three thousand dollars.

### **APPARATUS IN SERVICE**

The apparatus of the department, in service, consists of the following; One Type 75, American Lafrance Triple Combination equipped with a 40 gallon chemical tank, carries 1,250 feet of 2½ inch double jacket, rubber lined fire hose, a full complement of fire fighting tools, has a pump capacity of 750 gallons of water per minute and was purchased in 1924. One type 65, American Lafrance Triple Combination, equipped with a water booster tank, carries 1,000 feet of 2½ inch double jacket rubber lined fire hose, a complete kit of fire fighting tools, has a pumping capacity of 400 gallons of water per minute and was purchased in 1926. One Type BU-1, Maxim Triple Combination, equipped with a 60 gallon water booster tank, carries 1,250 feet of double jacket rubber lined 2½ inch fire hose, has a complete kit of fire fighting appliances. Was purchased in 1926 and has a pumping capacity of 400 gallons of water per minute. One Type 75-14 American Lafrance City Service Hook & Ladder Truck that carries a full complement of ground ladders, the longest being a 50 foot extension ladder, salvage covers gas masks, life lines, plaster hooks, wire cutters, hose clamps, cellar pipes, deluge set, full kit of smaller fire fighting appliances, has also a new Baker two-way turret pipe mounted on rear of the truck, that can be detached and used either on its pedestal or placed on the ground, or on roofs of buildings. This machine was purchased in 1925. One Chief's automobile, Studebaker Roadster, that carries salvage covers, fire gun and gas mask. This car was purchased in 1925. One horse drawn hose wagon, that carries 1,200 feet of 2½ inch double jacket rubber lined fire hose, chemical tanks, play pipes, etc. To haul this wagon to fires the department owns a pair of trained horses, one of these horses is 13 years old and the other is 14 years old.

### **APPARATUS IN RESERVE**

The department has in reserve the following horse drawn apparatus. One hose wagon, that is used to exercise

the horses and carries 1,200 feet of double jacket rubber lined fire hose, 2½ inch, chemical tanks, play pipes and other fire fighting appliances. There is a 6-way turret pipe mounted across the body of this wagon. Hose Wagon number 3, that carries 1,400 feet of 2½ inch double jacket rubber lined fire hose, chemical tanks, play pipes and other fire fighting appliances. One Amoskeag Steam Fire Engine, that has a pumping capacity of approximately 400 gallons of water per minute. This Engine was purchased in , and is of practically no use to the department, we use this steam engine mostly to relieve the motor engines on long jobs. One Aerial Ladder with hand raised solid side ladders, this Aerial ladder is also of no use to this department, it is next to impossible to use this ladder for life saving, and it is considered very unsafe to use as a water tower for fighting fires in high buildings, where walls are in danger of falling. We have nothing at the present time that can be used as a water tower for such fires. This Aerial Ladder was purchased in 1888.

## PERSONNEL AND ORGANIZATION

The Personnel of the department consists of 74 employees, 72 of this number receive pay from the city for their services and two receive no compensation. The personnel is classified as follows: Permanent Force, One Chief Engineer, who devotes his whole time to the service of the City. One Captain, Five Lieutenants, One Superintendent of Fire Alarm System and Seventeen Privates.

The Call Force consists of Four Assistant Engineers, One Fire Surgeon, One Reserve Assistant Engineer, Three Captains, Two Lieutenants, Thirty-Four Privates, two spare horse drivers and One Assistant to the Superintendent of Fire Alarm System.

The reserve Assistant Engineer and the Assistant to the Superintendent of Fire Alarm System receive no compensation.

## STATIONS

The department owns and operates three permanent stations and one temporary sub-station. Headquarters, Central Fire Station, Corner Ash & Bates Streets, hous-

ing Engine's Number 1 and 2, Hook & Ladder Truck Number 1, Chief's Automobile, Steamer L. C. Peck, Number 4, Hose Wagon, Number 3, Aerial Ladder Truck, and Fire Alarm Headquarters and apparatus.

Park Street Station, houses the permanent horses, one pair of temporary horses, Hose Wagon Number 1, Exercise Wagon, Hook & Ladder Truck (horse drawn) Number 2, and all winter pungs and equipment.

Lincoln Street Station, houses Engine Number 5.

Barkerville Station (Sub-Station) houses a hose reel carrying 500 feet of serviceable 2½ inch double jacket rubber lined fire hose.

## INSPECTIONS AND FIRE PREVENTION

Officers and membres of this department inspected 9,674 buildings or places of business during the year, this number of inspections includes buildings in the business section of the city that were inspected once a month during the year. All buildings were inspected at least once during the year, including farms and other buildings outside the protected area.

We have found that these inspections aid greatly in reducing the number of fires and is also a mutual benefit to both the citizens of this city and to the members of this department, as these inspections allow our men to study the construction, contents and exits of buildings so inspected, so that in case of fire in any of these buildings, it becomes easier for them to find their way in and out of these buildings.

We have been very much encouraged by the way the citizens have made this important work pleasant for us through their willing co-operation, for which we are very thankful.

As in past years we have carried out a program of fire prevention that belongs to larger cities than Lewiston. The Chief Engineer has spared no opportunity where fire prevention could be preached or practiced. Especially during fire prevention week in October, this department carried out a program of instructions on fire prevention to the school children of this city, by delivering lectures by His Honor the Mayor, the Commissioner, Mr. Chas. Bickford, superintendant of our schools, and the Chief of the department. Over 3,400 children and school teachers attended these sessions. Besides deliver-

ing lectures moving picture films, which were very instructive in the movement of fire prevention were shown, the children were instructed how to behave in buildings where a fire might occur, they were also instructed how to avoid causing fire and how to extinguish a fire at its start. Demonstrations as to the use of hand extinguishers and how to turn in a fire alarm were also given.

Inspections were carried on during this particular week and the firemen, aside from parading the streets with fire trucks draped with fire prevention signs, gave instructions to the public how to prevent fires and the proper method to turn in a fire alarm, by using fire alarm boxes mounted on poles on our principal streets.

The school Authorities, the Clergy, the Press and Theatres were a great help to us in many different ways, for which we are thankful for their co-operation.

### **DRILLS, CALISTHENICS and LIFE SAVING**

As reported last year, and so as to incorporate it in this report so that the Honorable Mayor and Members of the City Council shall be acquainted with the fact that we are still carrying out our program of drills for every member of this department. We now have summer and winter drills, when the weather permits, we have our fire drills out of doors, otherwise we have them in stations, so that our entire membership, including the call force, receive instructions in fire fighting and the use of the different appliances at least once a month.

The same program of physical exercises are held every morning for one half hour for the benefit of the permanent members, excepting Sundays and legal holidays.

As reported last year, the Scheafer Method of resuscitation has been practiced for one hour every week during the year, by every able-bodied permanent member. We received many calls for this particular work during the year.

During the year, every fireman that had previously qualified was re-examined by Mr. Lafountain of the Y. M. C. A. a qualified instructor on life saving.

In conjunction with life saving work, it is our desire to adopt for this year's work a complete course on first aid, that will be given to all the permanent members of this department free of charge through the local Red Cross Unit.

**IMPROVEMENTS****STATIONS—FIRE ALARM SYSTEM—APPARATUS**

During the year many improvements and repairs have been done in our stations. In view of the fact that our appropriation was very small, we confined ourselves to just what improvements and repairs that were most urgently needed. By judicious expenditures as well as being economical we were able to accomplish the following repairs and improvements. A new floor was constructed in the barn at the Park Street Station. A new section of cement floor was constructed in the barn at Central Station. Repairs were made on the heating plant at Central Station and a brass pipe line was installed between the hot water tank in the basement to the lavatories, in bath rooms. Three new tapes were purchased and installed, thus complying with the Underwriters' recommendation that our visual indicators be replaced with tapes. Four new fire and alarm boxes were purchased and installed. One Number 21 was installed at Corner of Union & Oak Streets, and the other three were installed to replace old boxes that were in danger of not rendering reliable service.

A new circuit was constructed to break up a circuit that was too long and overloaded and also to accommodate the Marcotte Home for aged people and St. Mary's General Hospital, this circuit was run overhead from the corner of Sabattus Street and Central Ave., and underground in twin lead cables from the corner of Middle and Ash Streets, a distance of over 3,000 feet, this being the first step taken towards placing our fire alarm wires underground, according to the recommendations of the Underwriters.

A new circuit was run from Central Station to Lincoln Street Station for signal circuit to automatically notify headquarters when truck leaves and returns to quarters.

Two new traffic siren were purchased and installed at corner of Lincoln & Chestnut Streets, and corner of Lincoln & Cedar Streets. These sirens are controlled from the Lincoln Street Station.

New Siren control was purchased and installed at Central Station, and the old one installed at the Lincoln Street Station.

New type punch register and take-up reel was purchased and installed on Hook & Ladder side of Central Station, and older type transferred to the Park Street Station. Two second hand punch registers were purchased and installed at the Chief Engineer's and Superintendent's homes.

Twenty-six street light fixtures with 12 inch red globes were purchased and installed over fire alarm boxes on poles to show location of fire alarm boxes at night. These have proven very helpful in locating fire alarm boxes at night and have contributed towards sending in alarms without delays.

Approximately two miles of No. 14 copperweld wire were run to replace badly rusted iron wire in different sections of the city.

A City map has been completed, showing fire alarm circuits in red, and installed at fire alarm headquarters, thus fulfilling another recommendation of the Underwriters.

New lighting fixtures were purchased, and considerable repairs and new wiring have been done at the different stations and considerable painting was done also.

Considerable fire fighting appliances that were badly needed were purchased and installed on the apparatus.

## **PENSIONS AND CASUALTIES**

During the year the department was very fortunate and suffered no major casualties, and very few minor injuries were suffered in line of duty.

During the grippe epidemic the department was somewhat affected, but managed to get by without any additional expense.

We have on the pension roll at present three ex-firemen.

## **RECOMMENDATIONS**

I sincerely hope, with your co-operation, we can complete our study of building codes, so that we can submit to the City Council for their approval and adoption a building code suitable for our city, at an early date.

I recommend that the City ordinances be changed, so that the inspection of wires come under the supervi-

sion of the Fire Department. It is my opinion that the general public would be better served if this recommendation was accepted.

I again recommend the erection of sub-stations on the out-skirts of our city, and the reasons therefor are given in last year's report.

As recommended last year, that the city purchase at an early date, an Aerial Ladder, with water tower equipment, to replace the old one now in reserve, that was purchased in 1888, and as explained in this report as being of no use to this department. To my knowledge there is no city of the size of Lewiston, with its congested conditions and high buildings that does not own a modern Aerial Ladder. The reasons for the purchase of this Aerial Ladder were fully given in last year's report.

That the pair of horses owned by the department be replaced with a triple combination of at least 750 gallon capacity. As explained in last year's report, these horses are costing the city approximately one thousand dollars per year for maintainance, not figuring the cost of new floors that have to be replaced, that are damaged by these horses. It seems to me that the city would gain materially if these horses were done away with and the triple combination purchased.

That the Park Street Station be sold and the money derived therefrom be expended in the erection of sub-stations.

Having done away with horses at Central Station, that we be given permission to spend approximately one thousand dollars for the enlargement of the first floor at Central Station, so as to enable us to use the space originally used as the stable. In doing this, wash stands could be built and our apparatus washed in stations instead of outdoors as done at present, regardless of the weather.

That a new cement floor be constructed in central part of Central Station, as reported and explained in last year's report.

That the Barkerville Station be repaired or demolished, and the hose reel that is stored there at the present time, be housed at the temporary station at the Fair Grounds. This station is badly in need of repairs.

That a new heating plant be installed at the Lincoln Street Station. The one in use at present is a one pipe furnace and is very unsatisfactory.

That a motor driven compressor with automatic control be purchased and installed to replace the old one that has been in service for the past 50 years for our fire whistle, as recommended in last year's report.

That a small truck be purchased, to haul the wet hose back to stations after every fire, this truck to be equipped with lighting equipment to be used at night fires, as explained in last year's report. This small truck would be very useful for forest, dump and grass fires and also could be used to good advantage to carry wrecking and other tools to fires, and could also be used as a supply and fuel truck in case of big fires.

That a sum of money be added to our appropriation to allow us to properly repair the drainage system from the roof of Central Station. Every winter we experience an unpleasant condition in front of this station caused by the outside drain pipes freezing.

That our program of improvement of the fire alarm system be continued, both as to the replacement of old boxes that are liable to give us trouble, with non-interfering succession boxes, and the placing of our fire alarm wires underground in lead cable wherever there are ducts available.

That a fire alarm box pedestal be purchased and installed at the corner of Main & Lisbon Streets, where our fire alarm cable passes underground.

As recommended last year, that the pumping station never be left without a competent engineer on duty and that said engineer be instructed to start the pumps for every fire, if the pumps happen to be stopped.

## CONCLUSION

In conclusion, I wish to extend my thanks to His Honor Mayor Wiseman, and the Members of the City Council for their cooperation and the interest they have taken in the welfare of the department. To the members of the Police Department, to the Superintendents and employees of the other public departments for the valuable services they have rendered. To Dr. Joseph W. Scannell, our Fire Surgeon, and his private nurse, for Medical and Surgical treatments rendered the members of this department

while in service at fires, To the Sun-Journal, the Messenger, the School Authorities and Clergy for their cooperation during fire prevention week, and to all others that have volunteered their services, or assisted our department in any manner.

To the Officers and the Members of the department they have my recommendation and sincere thanks for the efficient and faithful manner in which they have performed their duties.

T. MARTIN KERRIGAN

Fire Commissioner.

March 12, 1929

**TRAFFIC**

This is the greatest problem now confronting all police departments, and warrants serious consideration. It is only a comparative few years since we began using traffic officers at our busiest corners, and the amount of vehicular traffic has doubled and tripled since.

During this period many devices have been tried, to aid in the relief of traffic congestion, and the most satisfactory and sensible solution appears to be the installation of automatic traffic control signals on each corner of the intersections. These devices placed in conspicuous po-

sitions are always in the vision of the automobile operator and do not offer any chance for a misunderstanding of signals. They are so regulated that traffic moves progressively and steadily at a desired speed throughout the controlled area, and the timing of the signals also allows for sufficient time to clear the intersection of traffic in one direction, before the line of cross-traffic starts.

They are a distinct aid to pedestrian traffic, and while our pedestrian accidents are few, yet we must endeavor to eliminate them entirely. Several cities in Maine have already installed this type of signal, and we would only be in keeping with the progressive spirit, if we were to make an installation before the summer traffic gets under way. It would certainly be of great value to our local autoists, our tourist visitors, our pedestrian citizens and to the police department.

The question of cost now naturally follows, and while realizing that it will be considerable, I believe that for the service rendered, it would be a profitable investment. I might at this time, say that such installation costs approximately \$400 for each four cornered intersection, but no doubt this price could be bettered if a system was installed to cover our busiest area.

I would suggest and recommend that, starting at the Lewiston end of the North Bridge up Main Street to and including Hospital Square, and on Lisbon Street from Hulett Square to and including Cedar Street, be considered for the installation of a system such as this.

## **STOLEN PROPERTY**

Property recovered by this department returned to rightful owner amounted to \$9,301.90.

There were 19 automobiles reported as stolen from our streets and all of them were recovered. In addition we recovered seven automobiles which had been stolen from other cities in this State and from Massachusetts.

## **LIQUOR**

Our enforcement of the "Prohibitory Law" once again stands out prominently in the records of this department, and is no doubt leading by far, the activities of any other Police Department in Maine. Such enforcement has a decided control over the major crimes usually committed in

a community of our size, and this has been an important contributing cause to the fact that the number of major crimes in this community is so low.

The following tabulation shows a comparison of the prosecutions for violation of the liquor law in ratio to the arrests for intoxication.

Year	Arrest For Intoxication	Violation Liquor Laws	Ratio
1925	883	156	5.66 to 1
1926	901	176	5.12 to 1
1927	968	124	7.80 to 1
1928	829	151	5.49 to 1

### POLICE SIGNAL SYSTEM

A new box has been ordered, to be placed at corner of Bartlett & Birch Streets and the wiring is completed for its installation as soon as it will arrive.

This has been a much needed instrument and will care for a section that had never been covered before. Three more boxes are needed.

On Main Street between Park & Lincoln Streets is a situation that must be looked after, at present the police signal wires are overhead, and there has just been completed a conduit which would allow for our wires to be laid underground and a pedestal to be erected on curb at Main & Lisbon Streets to care for police box. The offices of this department were thoroughly cleaned and repainted and suitable signs placed for the convenience of the public. Aldermen Paradis, Breen and Elie took great interest in this matter.

It will be necessary to replace our present Dodge, while the remainder of our motor equipment is in good condition.

The consideration shown to myself and members of this department, causes me to express my sincere gratitude to Police Commissioners Pomeroy, Gastonguay and Robbins; also to Mayor Wiseman and the Board of Aldermen for their endeavors in support of this organization.

Respectfully submitted,

John H. Ashton,

Chief of Police

# REPORT OF THE POLICE MATRON

---

To the Police Commissioners of the  
City of Lewiston.

Gentlemen:

I have the honor of submitting my third annual report as Police Matron for the year ending February 28th, 1929.

I have been in my office daily, remaining in my office mornings, reserving afternoons for investigating complaints, making calls at homes, also office appointments. I have cared for women who were in the custody of the police, appeared with them in Municipal Court when needed. I have assisted in raids by searching women. At other times I have visited, cafes, depots, theatres, rooming houses, especially to seek girls who are rooming out, although they have their parents and home in town, they have admitted to me that they had left home to have more freedom. I have called on them often and after many efforts, I have finally convinced them that a good home was the real and only place where one is truly safeguarded, later they have come to me and told me how contented they were, and have thanked me. In my travels about town during school period I have seen children of school age not in school. I have either taken them to school or notified their parents and truant officer.

I have accompanied women and girls to the Women's Reformatory at Skowhegan, also to the State School at Hallowell, several to the State Hospital at Augusta. I also have accompanied girls to the Home of the Good Shepherd in Boston, incurring no expense upon the department or City.

I have also had children placed in the custody of the State Board of Charities, as their health and morals were in danger at home. I have found very good permanent homes for illegitimate babies, visit them occasionally, and feel assured of their comfort.

I have assisted girls in securing work and in locating good boarding places. My work as a protecting officer has meant taking care of girls who have never come to the attention of the police. My aim has been, if

within my power, to help them before they reach this stage. I visited stores during holiday seasons, also places patronized by women and girls, did police work at the State Fair, carnivals etc. I sent one girl home who was travelling with the Fair.

I have been in my office many evenings by appointment, I have always at all times been within call when not here, and ready to answer such calls. I have enjoyed my work, and have found Chief Ashton always ready to lend his untiring efforts to help my work. I wish to thank the Commissioners, the Chief, both Captains and Officers, the Mayor, City Officials and citizens who so kindly assisted me with their aid and counsel.

Respectfully submitted,

Mrs. Irma Michaud

Police Matron

---

## REPORT OF THE CITY FARM

---

Lewiston, Maine, March 12, 1929.

**To the Honorable Mayor and  
Board of Aldermen:**

I herewith submit my report for the year ending February 28, 1929.

Amount appropriated	\$ 9,000.00
Amount received from Sale of Produce and other items	2,271.40
Received from State	1,156.98
Due from State	252.78
	<hr/>
	\$12,681.16
Total amount expended	12,920.94
	<hr/>
Amount Overdrawn	\$ 239.78

We have had an average of Seventy-one Inmates this year. An increase of nine (9) over last year, and twenty-one (21) over the year before. Those unfortunates are well treated at the farm; good clothing, tobacco, and well cared for.

For many years there was a shortage of water on the farm, and in the Brick building was hardly any water, so all the buildings were repiped. Six (6) Bath Rooms and over 450 feet of pipe were laid. Now we have 60 lb. pressure in Wooden and Brick Buildings.

A new Corn Planter was purchased this year and also a Jigger Garbage Wagon; the latter was built by myself. 600 Cedar Posts were also bought, and 200 Rods of Wire Fence, so part of the Fence was renewed. The Piggery received two fresh coats of paint, and a lot of minor repairs was done.

The Barn and Wood Shed are in bad need of repairs, and I would recommend that both Buildings be taken care of in the early part of the Summer.

So in closing I want to thank the Mayor, and Board of Aldermen, and all the City Officials.

Respectfully submitted,

Antoine Landry

Supt. Lewiston City Farm.

# **REPORT OF THE LEWISTON POOR DEPARTMENT**

---

Year Ending February 28, 1929

Total Expenditures for 1928	\$65,630.16
Received from Outside Towns & State for 1928	16,122.57

Respectfully,

GEORGE O. ROBERGE,

Inspector of Buildings.

---

## REPORT OF SUPERINTENDENT OF LIGHTING PLANT

---

City of Lewiston. March, 1928

To the Honorable Board of Mayor and Aldermen.

Gentlemen:

I herewith submit my report as Superintendent of the Municipal Lighting Plant for the year ending Feb. 28, A. D. 1929.

During the year we used Sixteen thousand one hundred and fifty-five (16,155) feet of new wire. We installed Thirty-eight (38) series Goose Neck Lights; Forty-seven (47) Ornamental lights and Twenty-five (25) red Fire Alarm Box Lights.

## RECOMMENDATION

I would recommend repairing on the West side of the Brick Wall of the Wheel Pit, which would cost approximately Eight Hundred (\$800.00) Dollars. These repairs are urgently needed.

Respectfully submitted,

ALFRED LAJOIE

Superintendent.

---

Respectfully submitted,

EDWARD T. GOFF,

City Treasurer.

# REPORT OF HEALTH OFFICER

---

Lewiston, Maine, March 2, 1929.

To the Honorable Mayor and Board of Aldermen:

Gentlemen:

We herewith submit a brief report of the Health Department activities during fiscal year 1928-1929.

Monthly reports of activities of this Department have been submitted and are available at all times.

Mrs. Andrea Lacoursiere was appointed Clerk, replacing Miss Ernestine Lemaire, resigned. During the year there were no other changes in the personnel of this Department.

The appropriation for 1928 was \$10,500 and receipts from State, from licenses and miscellaneous resources were \$768.65. A transfer of \$639.12 was made to take care of overdrawn amount.

We expended \$11,907.77 for the maintenance of the Health Department. This amount includes the salaries of the Health Officer and Staff, also supplies, drugs, antitoxin, sera and various other miscellaneous expenditures.

During the year 1928 there were 895 births and 557 deaths. The death rate per 1,000 population in 1928 was 15.4, being practically the same as in 1927, the rate then being 15.5.

Nevertheless we wish to call to your attention a noticeable decrease in the general death rate since 1920, which was 19 per 1,000 population.

The infant mortality rate for 1928 is 105 per 1,000 births, which is a very slight increase over the preceding year, that being 104.8. In this case, also, we wish to call your attention to a decreased rate since 1920, that being 153 per 1,000 births.

Communicable diseases for which we have means of immunization showed a gradual decrease every year.

**DIPHTHERIA:** From 71 cases in 1920 to 13 cases in 1928.

TYPHOID FEVER: from 16 cases in 1920 to 2 cases in 1928.

SMALLPOX: from 31 cases in 1920 to one case in 1928.

TUBERCULOSIS: all forms, from 58 cases in 1920 to 20 cases in 1928.

During the year, as in previous years, campaigns were carried out, endeavoring to immunize children and citizens against Diphtheria and Smallpox.

2,332 persons were vaccinated against smallpox.

185 children were immunized against Diphtheria.

Again I shall call to the attention of the Municipal Officers the necessity of an isolation hospital. Frequently it is a problem for this Department to properly isolate persons afflicted with communicable diseases that are found in lodging houses.

Recently it has become necessary, due to a slight epidemic of Smallpox, to transfer several persons to the Municipal Farm. I strongly urge and recommend some action by the Municipal officers, in order to eliminate what, in our opinion, has been the biggest handicap in the control of our Communicable Diseases.

I wish to thank the municipal officers, the different Departments and Citizens for their cooperation in our endeavor to make Lewiston a healthy City.

Respectfully yours,

L. J. DUMONT, M. D.,

Health Officer.

# REPORT OF THE HIGHWAY COMMISSION

---

Lewiston, Maine, March 1, 1929

To the Honorable Mayor and Board of  
Aldermen of Lewiston, Maine.

Gentlemen:

The following report of the Lewiston Highway Commission is respectfully submitted for the year ending February 28, 1929.

## THE BOARD IS COMPOSED OF THE FOLLOWING MEMBERS

Harry Stetson, Chairman

C. P. Lemaire

Geo. A. Rivard

A. G. FOSS, Clerk

A. G. Roy, Superintendent

C. J. Cronin 1st, Asst.

The following recommendations are presented to your Honorable Board for permanent work the coming year.

## BITUMINOUS MACADAM

Hammond St., from Main St., to the Maine Central R. R.

Bridge St., from Maine Central R. R. to Spring St.

Ash St., from Howe St., to Webster St.,

Campus Ave., from Golder St., to College St.

Pierce St., from Walnut St., to Birch St.

Bartlett St., from Pine St., to Birch St.

Webster St., from Sabattus St., to Pine St.

Bartlett St., from Sabattus St., to College St.

## CUT BLOCK PAVING

Ash St., from Lisbon St., to Middle St.

Lincoln St., from Main St., to Chestnut St.

**SEWERS**

Extension of the Jepson Brook sewer.

Construction of about  $\frac{3}{4}$  of a mile of sewer on the Lisbon Road to accommodate the new Metal Corporation.

**PERMANENT WALKS**

It is the desire of the Board to continue the construction of permanent walks in all parts of the City.

**BRIDGES**

A new bridge has been completed during the past year over the Canal at Chestnut St., at a cost to the City of \$12,111.25. The North and South bridges should be painted the coming year.

A report of the work done during the past year will be found in the Superintendent's report.

Respectfully submitted,

A. G. FOSS.

Clerk.

---

**REPORT OF THE  
SUPERINTENDENT OF STREETS**

---

Lewiston, Maine, March 1, 1929

To the Honorable Board of Highway Commissioners:

Gentlemen:

I herewith submit my annual report as Superintendent of this Department for the year ending Feb., 28, 1929.

The following permanent work has been done the past year.

**PERMANENT STREETS**

4500	Sq yds	Bituminous Macadam on	Webster St.
2200	" "	"	Ash Street.
2000	" "	"	Campus Ave
6000	" "	"	Main St. (R)
11000	" "	"	Sabattus Road (SA)
1600	" "	"	Blake St.
2700	" "	"	Chestnut St.
<hr/>			
30000	" "		

**CUT BLOCK PAVING**

5554	Sq yds	Cut Block Paving	Main St.	(State Aid)
6994	" "	"	Cedar St.	(State Aid)
<hr/>				
12548	" "			

**SEWERS**

The following sewers have been constructed during the year:—

1000	ft. of	36"	Sagment Block	Jepson Brook System
250	" "	10"	Pipe	Pettengill St.
250	" "	10"	"	Wilson St.
150	" "	10"	"	Lafayette St.
550	" "	10"	"	Franklin St.
<hr/>				
2200				

18 Catch Basins and 9 Manholes have been constructed.

**REMARKS**

The increase asked for in the appropriation for sewers is made necessary by the request for the construction of a sewer for a distance of about three quarters of a mile of 24" pipe on the Lisbon Road to accomodate the American Electro Metal Company.

**PERMANENT WALKS**

4100 Sq yds of Cement Walks have been laid the past year and 8060 feet of concrete curbing constructed and 2300 feet of old granite curbing reset.

**3d, CLASS ROAD**

3800 feet of 3d, Class Road were constructed at South Lewiston leaving about 1300 feet to build the coming year. It is the intention to transfer the work the coming year to the Webster Road.

About five miles of road were gravelled the past year.

**BRIDGES**

All of the iron bridges should be painted the present year, especially is this true of the North and South Bridges. A fine concrete bridge has been completed over the canal at Chestnut St., the past year.

One Linn ten ton Tractor with plow, and one No. 20 Cletrac Tractor have been purchased the past year, so at the present time the department is very well supplied with snow removal equipment.

I would recommend the following amounts for carrying on the work of the department the coming year.

Highways	\$110,000.00
Permanent Streets	55,000.00
Permanent Walks	10,000.00
Sewers	35,000.00
Bridges	6,000.00
Sprinkling	5,000.00
	<hr/>
	\$221,000.00

In closing this report, I would extend thanks to the Board for advice given during the year.

Respectfully submitted,

A. G. ROY.

Superintendent.

Read, accepted and sent forward.

# REPORT OF THE SUPT. OF WATER WORKS

---

To the Honorable Board of Water Commissioners.

Gentlemen :—

I have the honor to present to you my Report of Superintendent of the Water Department for the fiscal year ending Feb. 28th., 1929, this being the 49th. Annual Report.

## CONSTRUCTION

Eighteen extensions were made during the year at a cost of 5,614.96 dollars, laying 3,768 feet of pipe as follows:—

Nelke Street, 64 feet 1½" Galv. pipe  
Bates Street, 118 feet 1" Galv. pipe  
Scribner's Blvd., 130 feet 1" Galv. pipe  
Reservoir Avenue, 100 feet 2" Galv. pipe  
Farwell St. Ext., 1,104 feet 12" C. I. pipe  
Warren Ave. Ext., 120 feet 6" C. I. pipe  
Reservoir Avenue, 82 feet 1" Galv. pipe  
Highland Avenue, 460 feet 6" C. I. pipe  
Fairlawn Avenue, 376 feet 2" Galv. pipe  
McNamara Street, 150 feet 1" Galv. pipe  
Gould Street, 97 feet 2" Galv. pipe  
Eaton Street, 130 feet 1" Galv. pipe  
Tampa Street Ext., 180 feet 1½" Galv. pipe  
Nelke Place, 174 feet 1½" Galv. pipe  
Franklin Street, 112 feet 1" Galv. pipe  
Randall Road, 80 feet 1" Galv. pipe  
Scribner's Blvd., 253 feet 1" Galv. pipe  
Farwell Street Ext., 150 feet 1" Galv. pipe

## NEW SERVICES AND RELAYS

52 New Services.

131 Services relayed.

95 Cleanning of services and one Sprinkler Service.  
One hydrant was installed on Farwell Street.

### REMARKS

During the year we extended 1,104 feet of 12" Cast Iron Pipe on Farwell Street, said line to finish on Sabat-tus Road, and when completed give the residents of that section better fire protection, consequently I recom-mend the continuance of said extension. Also the ins-tallation of a 24" Automatic Gate at Station, on gravity from the Lake. Would also recommend the installation of a 24" Gate off the 36" line coming from Lake Auburn.

FRED G. HAYES,

Superintendent.
