HAROLD N. SKELTON, Mayor

Mayor's Address

Gentlemen of the City Council:-

We are assembled for the purpose of receiving the oath of office and entering upon the discharge of the duties of the respective positions to which we have been elected. It is customary on these occasions for the mayor to present publicly a statement of the city's financial condition and such other review and recommendations as seem to be expedient. While this is a wholesome custom and one which ought to be observed, I have no desire, and see no call to make a lengthy address at this time.

The auditor has furnished me with the following summary of the city's assets and liabilities as of Feb. 28, 1931:

Municipal Assets

Cash on hand	\$ 343,748.58
Petty cash	500.00
Accounts receivable (State)	5,486.86
Accounts receivable (other)	8,793.13
Accounts receivable (water)	10,163.49
Accounts receivable (jobbing)	454.59
City property (movable)	396,835.47
Fixed city property	2,501,602.58
Uncollected taxes 1914-1929	105,073.42
Uncollected taxes 1930	14,089.21
Uncollected tax deeds	47,574.13
Stock L. & A. R. R.	225,000.00
Trust fund deposit	450.00
Total	<hr/> \$3,659,771.46

Municipal Liabilities

Municipal bonds 4% serial water	\$ 135,000.00
Municipal bonds 4% ser. water & bridge	500.00
Municipal bonds 4% ser. water	158,000.00
Municipal bonds 4% water	85,000.00
Municipal bonds 3½% old city bldg.	183,000.00
Municipal bonds 4% railroad	100,000.00

Municipal bonds 4½% serial railroad	65,000.00
Municipal bonds 5% serial (old notes)	160,000.00
Municipal bonds 4½% serial armory	130,000.00
Municipal bonds 4½% serial school bldg.	35,000.00
Municipal bonds 4½% serial school bldg.	30,000.00
Municipal bonds 4½% serial war	50,000.00
Municipal bonds 4½% serial water & bridge	45,000.00
Municipal bonds 4% New High School	500,000.00
<hr/>	
Total bonds	\$1,676,500.00
Sinking fund	225,000.00
Overlay	25,558.64
Trust fund	450.00
Unexpended balances	347,088.57
Municipal proprietary interest	1,385,174.25
<hr/>	
Total	\$3,659,771.46

There has been a net increase of the bonded indebtedness during the past year of \$431,500. This is due to the issue of \$500,000 of bonds for the erection of the new high school building. There has been an actual decrease in the bonded debt existing March 1, 1930, of \$68,500. This is due to the retirement of \$7,500 from an item of \$8,000 already due for which special funds were available at the beginning of the year, and of \$61,000 of serial bonds of other issues which matured during the year.

Until within a comparatively few years it was the practice to sell bonds in issues all to fall due on a given date. Small appropriations were made annually for the reduction of the funded debt, but since no corresponding amount of the debt fell due during the year this appropriation often was used for other purposes, and whenever an issue became due it was refunded in full. This practice resulted in carrying the old debt in full and adding to it whenever a new outlay was required.

More recently the city adopted the policy of issuing its bonds to mature serially, which results in a substantial annual reduction, without great hardship in any year. As payments of principal reduce interest charges larger appropriations can be made for reduction of principal. This fact was observed in making provision for the cost of the new high school building. The bonds mature at the rate of \$10,000 per year for the first ten

years, and \$15,000 per year for the next nineteen years. The balance matures. February 1, 1961. This arrangement will necessitate a charge of \$30,000 for the current year, \$20,000 for interest and \$10,000 for payment of debt. The interest charge will decrease \$400 per year, and when the annual retirement becomes \$15,000 the total charge for principal and interest will again become approximately the same as for this first year.

Uncollected Taxes

The item of uncollected taxes prior to 1930, as shown in the foregoing statement, exclusive of that designated as Uncollected Tax Deeds, is \$105,073.42. This runs back to 1914. Much of it must represent obligations which are no longer of any actual value, and it has often been suggested that the older ones should be charged off. This probably would be good accounting, but every effort should first be made to realize as much as possible from it.

I recommend that you consider whether these older accounts may not properly be placed in the hands of capable attorneys for collection on terms which would make it an object for them to make extraordinary efforts. The compensation must be commensurate with the great difficulty of the task. It is no longer practicable to look to the tax collector for those earlier years, and the average annual amount uncollected does not indicate any striking degree of negligence on their part in making the collections for which they were charged. Whatever may be realized in this way will be clear gain to the city, and it must expect to pay enough for the service to make it worth while.

The amount uncollected February 28, 1931, on the 1930 commitment was \$14,089.21 compared with \$15,883.11 one year ago on the 1929 commitment. This is an excellent record, especially when we consider business conditions and that the commitment for 1930 was substantially greater than for 1929.

Review of the Past Year

The outgoing government was pledged to three major undertakings, the erection of the new high school

building, a city audit, and painstaking supervision by committees over the work of their several departments. Their first two in particular, were outstanding promises in the pre-election campaign and the election was deemed to be a mandate for their execution.

The high school building had long been a recognized need. The government of 1929-30 had definitely committed itself to it, but difficulties arose which delayed the work. These were finally arranged, and actual construction was begun early in the fall of 1930. Excellent progress is being made and the building will be ready for occupancy in the coming fall.

Lewiston will then have a model building with classroom facilities adequate for many years. It was not possible to provide immediately for all that was desired in the way of assembly halls and gymnasium, but it was a choice between getting what the financial condition of the city would permit, or continuing without any correction of conditions which have long been the subject of complaint. The building is so planned that additions can be made in the future without serious economic waste.

The Audit

Steps were promptly taken to keep the promise of a complete audit. I am glad to state that this audit did not disclose evidence of intentional wrongdoing of any material character. It did result in recommendations for improved methods of departments which should be of great value to the city.

The cost was, in effect, made up by the stimulation of greater activity in the payment of accounts due the city. While such payments may be said to have been nothing more than was due, the changing of one form of asset into another, it is a fact that these old accounts become of less value with age and rapidly fall into that class which are useful for bookkeeping purposes only. Anything which results in converting them into cash is a distinct gain.

Departmental Work

Before addressing myself to a more intimate discus-

sion of the work which confronts the incoming government I wish publicly to acknowledge my appreciation of the co-operation which I have received during the past year from the various departments and from the committees and individual members of the Board of Aldermen irrespective of their political affiliations. The Police, Highway and Fire departments are somewhat removed from the control of the city council, but I have enjoyed uniformly courteous and helpful consideration from those charged with their management, and the city has had faithful and efficient service.

At the beginning of the year, I asked members of the standing committees of the city council to be especially vigilant in the conduct of the departments under their supervision. The response was very gratifying.

Committee work well performed takes time and energy. It gets little publicity and sometimes is not at all pleasant. It is more likely to bring criticism from those disagreeably affected than appreciative response from the public which is benefited. But it often happens that its value is unconsciously attested by the enemies it makes quite as forcefully as in any other way. A striking illustration of this is found in the report recently filed by the head of one department who complains of the activity of the chairman of the committee exercising supervision over him and confesses that the record of the department had been the best of any of the five years he had managed it. It is a significant coincidence.

The Coming Year

The great task of the coming year will be the efficient performance of ordinary governmental functions. There is no pressing demand for any special undertaking, and any substantial departure from absolute necessities would involve additional tax burdens which ought to be avoided. The city council should confine itself during the next few years as closely as possible to the reduction of present indebtedness. If this is done, maturing bonds can be met and interest charges reduced without undue hardship to property or industry.

Some permanent street work should be done annually, but our condition does not require great haste in this department. Improved fire protection for outlying

sections should be provided. This can be done one section at a time without great cost. The major water extensions presently demanded have been completed.

Poor Dept.

The poor department has been the greatest unusual strain during the past year and may continue to make large demands for a time. This, however, is similar to the experience of most municipalities under prevailing conditions. Those in actual need must be cared for.

Party Politics

This government is confronted with a situation which is not novel, but which, nevertheless, calls for honest consideration on your part and on mine. The manner in which we face it will determine very largely the measure of our usefulness as public servants. Perhaps I need hardly say that I refer to the fact that the mayor has been elected as a member of one political party and a majority of the aldermen as representatives of another.

Whatever may be said of the place that party politics ought to hold in municipal government, we are faced by a fact, not a theory. In Lewiston, as in most other American cities, it does play a conspicuous part. It is recognized that the policies of that party holding the majority in the government will be adopted, and that appointive and elective officers and employees will be selected from the party represented by those entrusted with the power of selection.

There are no public needs concerning which party lines are drawn. That as a cause of differences is out of the picture.

We shall have the appointment of subordinate officers to discharge the duties imposed upon them and of committees to have general oversight of the expenditure of money in the several departments. I wish to speak frankly about these matters. I believe that such frankness will be conducive to our mutual respect and to the best results.

Exercise Power

Wherever the duty to make such appointments is entrusted by law to the mayor I shall exercise it according to my best judgment and take the full responsibility for my acts. In those cases where the choice is to be made by the board of aldermen I shall make no complaint if the majority membership of that board exercises its rights in the same manner. I expect you to do so and to take the responsibility for your acts as I shall do for mine.

Responsibility

What I have just said relates particularly to the choice of officers by the city council. If it is the wish of the majority to control the appointment of committees of the board, except in those cases where membership is fixed by statute or ordinance, taking that power from the mayor where it lies under the present rules, you have the unquestioned right to do so, and I shall not construe it to be any discourtesy to me. It has been done before where a like situation existed, and it is **entirely within** your rights to do so now if you so desire. In that case you will again take the responsibility.

Yesterday, we were Republicans or Democrats. We shall probably continue to be Republicans or Democrats in the selection of men to fill positions under the Government. If we demand fitness for the places and honest work by the appointees, neither you nor I should be criticized for selecting them from our respective parties. That was expected when we were elected.

When that is over, however, the public has a right to expect us to be neither Republican nor Democratic. Honesty and efficiency in office bear no party label. Bearing this in mind and according to others the privileges we claim for ourselves, we should have no trouble in working together. I expect none.

Standing Committees

If the members of the standing committees, by whomsoever appointed, take their work seriously, they will give a good account of themselves, and the city

will get a good administration. The importance of this work cannot be overstated.

It directly affects the public, both by the quality of the service and the cost to the taxpayer. And every individual member of a committee has his responsibility for the results. If he finds that things are wrong, he cannot save himself solely by placing the blame upon the majority. If he cannot prevail upon his associates to correct evils, it is his duty to report them to the government. And if they cannot be corrected there in an orderly way, usually a little wholesome publicity will be effective. Good fellowship is no excuse for bad government.

Let us now address ourselves to the unselfish service of our constituents, remembering that we have not been drafted to fill our respective offices, that we have sought the positions to which we have been elected, and that no cost of time or effort, no personal inconvenience or annoyance is greater than we have voluntarily obligated ourselves to bear.

Let us meet our problems with open minds, discuss them freely and candidly, and strive to solve them with the public interest always uppermost. If we do this, if we think always more of the effect upon the city of Lewiston than of any petty advantage of the one over another, or of one party over the other, we shall perform our duties with credit to ourselves and profit to the city. I am sure that I shall have your heartiest co-operation to this end.

HAROLD N. SKELTON, Mayor.

March 16, 1931.

Lewiston, Maine.

Report of the Trustees of the Lewiston Public Library

Lewiston, Maine, March, 1931

To the Honorable the Mayor and
Municipal Council of Lewiston:

Gentlemen:—

Following our usual custom we most respectfully submit to your Honorable Body our annual report of the financial transactions of the Lewiston Public Library covering the year ending February 28, 1931.

The operation and use of the Library during the year call for no especial comment, though its activities have been attended with gratifying growth. Its increased circulation is sufficient proof of its need and importance in our community.

Increased service necessarily carries with it increased expenditure and extra help.

The Trustees are happy to take this opportunity to thank the City Fathers for the increased appropriation which it received at their hands for the year 1930-31.

This increased appropriation enabled the Trustees to add one more assistant to the staff which was greatly needed.

The increased circulation alone added much work for the Librarian and its staff and for their efficient service and for their spirit of friendliness and co-operation the Trustees are very grateful.

The Library often receives gifts of money and books of great value which it gladly receives and conveys its thanks to the donors who are friends of the institution.

But to Dr. Alfred Williams Anthony a friend of the city and our Public Library belongs the honor of a gift to our Library of the sum of ONE THOUSAND DOLLARS in the form of a TRUST FUND in remembrance of his sister, the late Miss KATE ANTHONY of Auburn for which the Trustees take this opportunity

to formally convey to the Doctor their most sincere thanks, hoping that the gift will set a good precedent for others to follow and imitate.

With this statement is coupled the report of the Librarian which we think covers the ground pertaining to Library interests and there remains but little more for us to present for your consideration.

F. X. BELLEAU, President of the Board

Public Library.

Library Report

March 1, 1931

To the Trustees of the Lewiston Public Library

Gentlemen:—

I have the honor to submit the twenty-eight annual report of the Lewiston Public Library.

It has been a year of progress in circulation and acquisition of books and in the care and improvement of the property. The number of books lent for home use was 110,382 an increase of 13,469 over last year. It is interesting to notice that 22,399 of these were in the French language, 4210 more than in 1929-30. An effort is made to serve a section of Lewiston distant from the library by sending a chest of books to South Lewiston in charge of Mrs. Earl Goodwin. The report of this circulation will be given next year.

Accessions

During the year 2,176 volumes have been added to the library by purchase and gift. These include reference sets and books of general interest with a supply of the fiction which constitutes the great proportion of the circulation. I wish to comment on the attractiveness of the books for children which are remarkable for literary value and artistic format.

Rental Library

The Rental Library continues successful, the receipts from which have been \$457.85. From this we have paid for 188 books of current fiction, the World Book Encyclopaedia 13 volumes, Pictured Knowledge 10 volumes, Lands and Peoples 7 volumes and the two volume supplement to the International Encyclopaedia. A ship model of the Mayflower has also been bought from rental money.

Gifts

The event of the year has been the gift of a trust fund of one thousand dollars in memory of Miss Kate Anthony from her brother Dr. Alfred Williams Anthony, the income of which is to be expended for nature books. These are to be distinguished by one of the most beautiful book plates in use in any library, designed by George Wharton Edwards, an artist of more than national reputation and which is in itself a gift of importance to the library as a work of art.

The Manufacturers and Mechanics Library Association which continues its existence by a representative on the board of Trustees of this library presented the four volume set Genealogy of Maine edited by the late George T. Little. Honorable Archie Lee Talbot, their trustee, has given twenty-eight volumes of rare books on the subject of the Pilgrims and the patriotic societies of Mayflower Descendants and Sons of the American Revolution. Mr. E. M. Lowell and Mr. E. H. Delano have made their annual gifts of magazines continuing the two bound files of the National Geographic Magazine which bear their names and Mr. Delano has added the volume of

Asia for the past year. Mrs. S. L. Andrews has given eighteen years of the National Geographic which will be bound as a third set for use in the reading rooms. Miss Claire Holland has also given a number of volumes of the National Geographic magazine which will be kept as a reserve. The Mary Dillingham Chapter of the Daughters of the American Revolution has paid for the binding of sixteen volumes of the Daughters of the American Revolution Lineage Books. Mr. Daniel Day contributes five dollars to buy something not afforded by the appropriation. The total number of gifts is 237.

Work with Children

The urgent need of the library is a children's librarian, some one who is familiar with books suitable for boys and girls in the grades and who by tactful advice might be able to divert their attention from the pernicious murder mysteries which have such a fascination for them. The circulation of juvenile books was 21,867, a gain of 1760 over the previous year. In June at the end of the school year about two hundred new books were placed in circulation and again Children's Book Week the winter's supply was made available. A chest of books was sent to the City Park Playground in charge of Miss Frances Stevens. 572 books were sent to school rooms for use as supplementary reading.

Publicity

The Lewiston Daily Sun and Lewiston Evening Journal have been generous in giving space for lists of books and items of interest about the library. We have published our usual Semi-Annual Bulletin of new books. The librarian has given eight book talks, before clubs to introduce the new books.

Art Exhibit

In January Miss Florence Osborne of the High School faculty assisted by other artists arranged an exhibition of amateur paintings which attracted many people to the library. It was an interesting collection of pic-

tures with some excellent large tapestries and gave so much pleasure that we hope it will be made an annual event.

Building and Grounds

For many years our handsome building has not been suitably lighted because the electric fixtures installed in 1903 have remained in use. Recently this has been corrected by the purchase of new fixtures for all rooms except the central delivery room which we hope will be given handsome lights in harmony with the general character of the decoration. The office has been re-decorated and a new filing-case added to our equipment.

The garden planted in 1923 by Mrs. Norton and Mrs. Hartshorn representing the Stanton Bird Club has been a pleasure in the neighborhood as every year since it first bloomed. A valuable Japanese shrub was added to it in April, the gift of the Stanton Bird Club.

Library Meetings

Miss Barr and Miss Flint attended the Northeastern Library Conference at Swampscott in June and in September went to Bar Harbor for the meeting of the Maine Library Association. Miss Barr serves as treasurer of the Maine Library Association assisted by Miss Belleau.

The work of the library had increased so much in 1929 that it was evident that another assistant was needed. So at the beginning of this year Miss Therese Rivard was elected as the third assistant. She has proved a helpful addition to the staff as desk assistant and her re-arrangement of the upper stacks is much appreciated. The High School assistants this year have been Doris Linehan and Betty Smart. Miss Helen Hanke of Lewiston was sent to the library from Simmons College in April for practice work.

I am glad to take this annual opportunity to thank my assistants Miss Belleau and Miss Flint for their consideration of my wishes in the performance of their duties and I wish to express to the Trustees my appreciation of their confidence in me and to thank them for their encouragement and support.

Respectfully submitted,

ANNIE L. BARR, Librarian.

Fire Commissioner's Report

Lewiston, Maine, March 1931

To his Honor Mayor Skelton and Members of
the City Council:

Gentlemen:—

I herewith submit the yearly report of the activities of the fire department for the past year. As in previous years no attempt will be made to tabulate all of the different figures of fire losses, causes, etc. Any one seeking such information can obtain same by request to the Chief Engineer of this department.

The following is the number of calls and fire alarms that the department responded to during the past twelve months.

Telephone	441
Box alarms	63
Still alarms	34
Chief calls	2
Sprinkler alarms (automatic)	6
Other than fire calls, life saving, etc.	16

Total number of calls	562
-----------------------	-----

Of the actual 538 fires, 531 were confined to the building or place of origin. 7 extended to adjoining buildings. 477 of these fires were confined to the floor on which the fire started. The confinement of fires to floors or places of origin or in other words where the fire started should mean much to the City Officials and speaks for itself for the efficiency of our fire department.

The fire losses for the year 1930 represent a per capita loss of only \$2.43, this figure is much less than last year. Per capita loss for 1929 was \$4.35,—1928 \$2.03,—1927, \$3.80,—1926, \$2.15. This remarkably low per capita loss is one that the department feels proud, and, in my judgment, justly so. It is very doubtful that this record can be surpassed by any city of the size of Lewiston with its many potential fire hazards, and wooden buildings.

The following is the exact copy of the report sent to the National Board of Fire Underwriters.

Total number of fires		538
In brick or stone buildings		39
In frame buildings		230
Other than building fires		269
Confined to building or place of origin		531
Extended beyond or to adjoining buildings		7
Number of fires confined to floor on which fire originated		477
Total value of property involved	1,056,829.66	
Total insurance thereon	641,262.80	
Total insurance loss	83,365.75	
Total insured and uninsured	98,462.90	Total loss
Direct losses	97,176.26	
Exposure losses	1,286.64	
		<hr/>
Per capita loss		\$2.43

Inspections

The same policy of fire prevention and inspections heretofore adopted have been carried out. The results of these inspections are reflected in the fire losses.

Apparatus in service

The apparatus of the department is in very good condition. During the year all the engines were tested and overhauled.

Apparatus of the department consists of the following:

One Mack Aerial Ladder, Tractor drawn truck, equipped with all the necessary ladders and tools including water tower pipe for fighting large fires. This truck was purchased in 1929.

One American Lafrance City Service Truck, carrying ladders and other tools such as salvage covers, brooms, life lines, pike poles, etc.; purchased in 1925.

One American Lafrance Type 75, triple combination, has a pumping capacity of 750 gallons of water per minute. Purchased in 1924.

One American Lafrance Type 65, triple combination,

booster tank equipment, life saving apparatus, fire hose etc.; has a pumping capacity of 400 gallons of water per minute. Purchased in 1926.

One Maxim Type BU 1, triple combination, booster tank, hose, gas masks, and other tools. Pumping capacity of 400 gallons of water per minute. Purchased 1926.

One Chief Engineer's automobile, Studebaker roadster purchased 1925.

One horse drawn hose wagon, that carries 1200 ft of 2½ cotton rubber lined fire hose, chemical tanks, axes, etc.

One pair of horses, one of these horses is 16 and the other is 17 years old respectively. Kindly notice what I have to say in regards to these particular horses in my recommendations.

Apparatus in Reserve

The apparatus in reserve is mostly antiquated equipment that is of very little use to this department.

One horse drawn hose wagon, loaded with 1200 feet of fire hose, carries a six way turret pipe for fighting large fires, and is used to exercise the horses.

Another horse drawn hose wagon, loaded with 1400 feet of fire hose and is only used in serious emergencies. A pole had been made to haul this wagon behind a fire truck.

One Amoskeag Steam fire engine, has a pumping capacity of approximately 400 gallons per minute, is used only to relieve the motor pumping engines on long jobs. Purchased in 1877.

One horse drawn city service truck, that carries full equipment of ground ladders, axes, pike poles, covers, etc.

The department owns 17,000 feet of 2½ inch cotton rubber lined fire hose in perfect condition.

Personnel

Permanent force

The following is the number of men for each grade as indicated:

Fire Commissioner	1
Chief Engineer	1

Supt. of Fire Alarm System	1
Captains	4
Lieutenants	5
Privates—1st class, 3rd year	13
Privates—2nd class, 2nd year	2
Privates—3rd class, 1st year	1

Call force

Fire Surgeon	1
Deputy chief	1
Assistant Engineer's	2
Assistant Supt. of Fire Alarm System	1
Captains	3
Lieutenants	3
Privates	30
Spare and part time drivers	2
Assistant Engineer reserve	1

Organization

Executive Fire Commissioner, Chief Engineer, Deputy Chief, Assistant Engineer's, three Engine companies, one hose company and two ladder truck companies.

Call force—two hose companies and one ladder company.

Pensions

The department has three men at present on the pension roll.

	Yearly pension
Ex-Captain John R. Maliar	\$120.00
Ex-Engineman J. B. Longley	\$102.00
Ex-Driver Herbert Sirois	\$272.00

Accidents

The members of the department were fortunate during the year. The only accidents reported were of minor consequences. Chief Charles E. Fortin, that was seriously injured in line of duty Nov. 10, 1929, returned to duty March 1, 1930.

Deaths

Fireman Bertrand Levesque, was accidentally drowned at Lake Annabessacook Aug. 7, 1930. Fireman Levesque

joined the department June 1st, 1926, and in his death the department lost one of its most valuable, faithful and efficient members. Loved by all who knew him and a friend to everyone.

Fireman Chas. Elie, died at his home May 22, 1930 after a long period of confinement. Fireman Elie joined the department July 18, 1918. He was a faithful and efficient member of the department and in his death it suffered a distinct loss.

Life Saving—First Aid

We received 14 calls for life saving, and treatment given by our trained operators under the supervision of the Fire Surgeon. In rendering this particular service the department officials feel that they are giving a service that is outside of fire duty and is appreciated by the people of this city, by the many letters of appreciation received.

Three new members are at present taking the Red Cross First Aid course. After these men have completed their course the department will have 16 members qualified to administer first aid to injured persons and be operators for resuscitation.

Stations

The department owns and operates three fire stations. Headquarters corner Ash and Bates Streets, Brick building housing Engines Number One and Two, Aerial and City service trucks, Steamer L. C. Peck, Chief's car and Hose Wagon Number 3. Also headquarters for all the fire alarm system apparatus.

Lincoln Street Station, wooden building housing Engine Number 5.

Park Street Station, brick building housing horse drawn laddered truck, Hose Wagon Number One and exercise wagon. Used as a storehouse for old equipment.

The department also owns a sub station, the Barker-ville Station, one and one-half story wooden building that is receiving no credit from the Underwriters.

—Drills—Calisthenics

Our program of physical exercises is being carried

out and the men seem to enjoy their morning half hour and are greatly benefited. Such exercises are held every morning except Sundays and Legal Holidays.

As previously reported, the Schaefer Method of resuscitation is practiced by every qualified operator for one half hour every Wednesday afternoon.

Fire drills for both call and permanent members are held periodically.

Improvements

Only the most urgent repairs were made to the buildings owing to the fact that our appropriations were not large enough to permit or attempt major repairs.

Appliances, such as salvage covers, fire hose, rubber coats, portable lights, play pipes, pike poles, etc.; were purchased and placed on the apparatus.

By economizing on every item of our budget, especially on that of "building repairs", we were able to purchase and install a new motor compressor for our fire whistle. This was very urgent, as the old machine that had been doing the work of pumping air into the tanks for the past 50 years or so, was badly in need of repairs, and any amount of money spent to repair this old machine would have been a waste of money and false economy.

A new transformer was purchased and installed at Central Station. A new circuit, and a new circuit for battery charging, tire compressor, greasing machine and power outlets was installed thereby saving considerably on the electric light bill.

Call bells were purchased and installed at Central Station.

Two new fire alarm boxes were purchased.

All motor apparatus was overhauled and placed in first class condition.

Recommendations

I would recommend to His Honor the Mayor and the Members of the City Council that the following recommendations be given serious consideration.

As recommended during the past years, that the pair of horses owned by the department and used to haul a hose wagon to fires, be sold and be replaced by

a triple combination of at least 750 gallons per minute, as recommended by the Underwriters. Again, I repeat, it is a waste of money to keep these horses in service any longer. These horses are costing the city for upkeep including shoeing, board, repairs of stalls, floors, etc.; approximately \$1,200.00 per year. They are useless to this department, but must be maintained in service in order to maintain our present insurance rate. We only use these horses in the immediate vicinity of the Park Street station, on second alarms mostly. Three men are kept on duty at all times to care and drive these horses. Salaries paid these three men amount to \$4,850.00 per year. These men could be used to very good advantage on a motorized piece of apparatus. If these horses are not replaced this year I am obliged to make the following recommendation.

That the city purchase a new pair of horses to replace the horses used to haul Hose Wagon No. 1. These horses are getting too old for active fire duty, and it seems to me that they have earned a good rest and should be retired to the city farm for the remainder of their lives.

Again I recommend the erection of sub-fire stations on the outskirts of the city.

That the ordinances be changed so that the inspection of wires come under the supervision of the fire department officials. The proper place for this important branch of fire inspection and prevention is in the fire department under the Supt., of the Fire Alarm System who is a qualified electrician.

That the National Electrical code be adopted by the City.

That a new automobile be purchased for the Chief Engineer. The automobile that the Chief now drives is six years old and is getting unsafe to drive at the speeds that the Chief has to travel going to fires.

That some ordinance be passed to control handling, sale and storage of inflammable liquids.

That the item in our budget referring to fire alarm repairs be favorably considered, so that we can complete our program of placing our fire alarm wires underground as recommended by the Underwriters. At present we have almost half of our wires underground.

That the Barkerville Station be either repaired or demolished.

That a small truck be purchased to haul hose back from fires, do all the trucking for the department, carry men to forest, dump and grass fires. This truck could be used as a hose carrier in emergencies, and could be purchased for approximately \$1,200.

That our fire alarm improvements be continued by the installation of at least six new fire alarm boxes. That the transmission of alarms be speeded up by the purchase of a transformer.

That a new circuit be installed and the necessary equipment be purchased for the three stations, so that all telephone calls be confined over the fire alarm system without sounding the fire whistle or City Hall bell.

That a time stamp be purchased for recording official time for all fire alarms.

Conclusion

In conclusion I wish to extend my most sincere thanks to His Honor Mayor Skelton and the Members of the City Council for their hearty cooperation, and the interest they have taken in the welfare of the department.. To the Officers and members and employees of the Police, Water, Streets and other public departments for the valuable services they have rendered. To Dr Joseph W. Scannell our surgeon and his private nurse Miss Shearer, for medical and surgical treatments rendered to the members of this department while in service at fires.

To the Sun-Journal, the Messenger, the School authorities and the Clergy for their cooperation especially during fire prevention week, and to all others that have volunteered their services or assisted our department in any manner.

To the Chief, Officers and Members of this department, they have my commendations and sincere thanks for the efficient and faithful manner in which they have performed their duties.

T. MARTIN KERRIGAN,

Fire Commissioner.

Report of the Lewiston Police Department

FISCAL YEAR ENDING FEBRUARY 28, 1931

To the Police Commissioners:

Gentlemen:—I am herewith submitting report of the police department for the past year, together with recommendations for the coming year:

Traffic

The need of a traffic control light at the junction of Sabattus, College and Horton Streets has been suggested in my previous annual report and I still feel that it is required. This junction is a five way intersection and is a location where traffic is heavy at certain periods of the day, and the most satisfactory way to handle the problem is to remove the flashing beacon and install a control light in its place.

The entrance of new bus lines in the city make it necessary for us to arrange for a suitable terminal for them. I feel that it would be a step in the right direction if a suitable loading and unloading platform could be erected in Union Square. To do this would call for some distinct changes in parking conditions at this point, but nothing that would work an injustice on anyone. I offer as a suggestion that a raised platform be built on both sides of electric car tracks on Main Street, starting at junction of Lisbon Street and extending easterly on Main Street as far as necessary.

This platform could then be used as a "Safety Zone" for electric car patrons and also serve as a terminal for bus lines and taxi cabs. A more complete plan of this suggestion is available at my office.

Eighty new enameled parking signs were recently purchased and the bands required for mounting on poles made, so that shortly the signs will be in place giving the necessary information regarding parking regulations.

All of our "Sidewalk Style" signs and "One Way Street" signs have been fully repaired and repainted so that they are in first class condition.

Police Signal System

Some of our wiring has already been put underground and there is an opportunity of having the wires on Lincoln Street put into an underground conduit. The previous work has been done in conjunction with the Fire Department, and if the same arrangements can be made for the Lincoln Street job, a saving in the cost of labor will result.

Motor Equipment

The Hupmobile Sedan was purchased new last year and is in good running condition.

The Paige Patrol has been in service since 1924 and is in fair condition.

The Hupmobile Touring has been in service since 1926 and should be replaced.

A new Ford Sedan has been purchased to replace the Ford Touring but has not been put into use as yet.

The Harley-Davidson Motorcycle was purchased new last year so that it needs no consideration at this time.

Office Equipment

A new steel file has been purchased to replace some old wooden ones and now the records that formerly filled the wooden files are all in one steel cabinet with ample space for expansion.

Ford Motor Patrol

Patrolling the outlying sections of the city by auto was inaugurated last summer and proved to be of great value. Much more territory is now patrolled than would be possible otherwise.

Lost and Stolen Property

Properties to the amount of \$9,742.93 have been recovered and turned over to rightful owners.

There was forty-seven automobiles stolen from the streets, and there are still three of them not recovered.

I wish to express my sincere thanks to the Police Commissioners, the Mayor, the Board of Aldermen and all others who have aided in carrying out the work of this department.

Respectfully submitted,

JOHN H. ASHTON,

Chief of Police.

Report of the Police Matron

Lewiston Maine, Feb. 8, 1931

To the Police Commissioners of City of Lewiston:

Gentlemen:—I herewith submit to you my annual report for fiscal year ending February 28, 1931.

As in the past I have planned to be in my office each forenoon, caring for such station duties as are necessary and receiving visitors to my office.

I also attend Court each morning. Whenever a female is in custody, I take charge of her during her detention, accompany her when arraigned in court and if she is to be committed to the County Jail I stay with her until she is locked up at the jail. I care for their personal needs and comfort so far as is it possible, and assist them in communicating with relatives, friends or attorneys.

I generally plan to have the afternoons free to make outside calls, investigating complaints and for special appointments at my office. I find that it is necessary to make many appointments for the evening, for those individuals whose employment does not afford them an opportunity to call during the day.

I frequently visit the cafés, depots, theatres and other places where women gather, to observe girls and women who have previously come to my attention. I call at rooming places and visit girls who for some reason have left home and taken rooms there. In the majority of instances the girls desire more freedom than is allowed them in their homes, and on finding such a situation I endeavor to have the girls return to their homes. In several instances this has been accomplished and the girls were happy to be back.

I visit all dances regularly, observing the conduct of the couples and viewing the conditions in the ladies' rooms. When I have seen young girls at these dances regularly, I have called at their homes to interview the mothers and to have a confidential talk with the mothers and daughters. I feel that a great deal of "what might have happened" has been avoided as the result of this talk.

I have accompanied all women committed to Women's Reformatory, State School for Girls and the State Hospital; also I have accompanied girls to the Home of the Good Shepherd in Boston. I have assisted in raids whenever it was expected that women or girls might be implicated; searching their persons for liquor or stolen articles.

I am watchful for children of school age who are not in school and report same to the truant officer or their parents.

I visited the various stores during the holiday period and did police work at State Fair Grounds, the Armory, Circuses and Carnivals.

I have cared for many girls who have come to my attention before any criminal action was proferred against them. Those girls I have aided in various ways and endeavored to have them establish themselves in good environment.

I have been called upon several times to make arrangements for expectant mothers without funds, and to find places for illegitimate babies. There have been several during the past year for whom I have found homes.

I have found Chief Ashton always most willing to co-operate in my work.

I wish to take this opportunity to thank the Police Commissioners, the Chief, the Captains and Officers, the Mayor and City Officials who have been most courteous and willing to aid me.

Respectfully submitted,

IRMA MICHAUD,

Police Matron.

Report of the Lewiston Poor Department

Total Expenditures for Poor Dept 1930		\$101,887.44
Amt. collected from State, 1930	\$13,823.16	
Amt. collected from Outside Cities & Towns	4,972.28

Respectfully,

LAWRENCE A. MURPHY,

Inspector of buildings.

Report of the City Farm

Lewiston, Maine, March 12, 1931

To the Honorable Mayor and Members
of the Board of Aldermen:

Gentlemen:—

I respectfully submit to you my fifth annual report as Superintendent of the Lewiston City Farm for the year ending February 28, 1931.

The following is an itemized account of produce raised and sold on the City Farm, viz:—

Hogs	\$1,668.05
Pigs	478.00
Potatoes	675.95
Poultry	329.62
Hay	189.46
Sweet Corn	121.10
Yellow-eye beans	140.00
Veal	75.73
Eggs	59.07
String beans	50.05
Cabbage	68.21
Carrots and Beets	25.25
Tomatoes	18.00
Cucumbers	16.60
Miscel	3.79

Total produce etc. sold	<u>\$3,918.86</u>
-------------------------	-------------------

It will be noted that the expenses incurred in this Department were approximately \$1,000, less this year than in the previous year. The explanation for this decrease in expenditures is that in 1929-30 considerable improvements were made, consisting of extraordinary repairs on the barn, wood-shed, and Garage; also the purchase of one heavy horse, and Tubes replaced in the House Boiler, with a total cost for these items of \$3,000.

This year repairs were needed, but not so much as last year, and the only items out of the ordinary were a truck, Thrasher and Cook Stove.

The following is the list of Stock on hand:

11 Cows
 3 Heifers
 1 Holstein Bull
 4 Spring Calves
 5 Horses
 200 Hens
 160 Pigs

Received from the Sale of Produce	\$3,918.86
Received from the State of Maine (outside residents)	1,923.60
Received from other Municipalities	534.08
Total amount received	<hr/> \$6,376.54
Total amount appropriated	\$10,000.00
Grand total received from all sources	<hr/> \$16,376.54
Total amount expended during the Municipal year for the maintenance and care of the Buildings, grounds, coal and wood, clothing, fuel, tobacco, repairs, care of inmates	<hr/> \$15,086.24
Leaving an unexpended balance for the year of	\$1,290.30

During the year minor repairs were made on the roof of the Wooden Building, outside stairs and platform were built also for the Brick Building.

The Vegetable House was wired for electricity, and some other minor repairs were made here and there when it was felt that such repairs were needed.

One Ford Truck was purchased at a cost of \$770.00 for the use of the Department; one Bean-thrasher at a cost of \$110.00; also a big Range for the cook-room costing \$273.00, total of three items of \$1,153.00.

I have tried and succeeded in making this year my banner year, and feel real pleased that such remarkable results have been attained this year. For this, my appreciation goes to those that have co-operated with me in making the farm a better place for the poor unfortunates that live there.

However, I feel sorry to have to admit that I have had no co-operation from the Municipal Officers this year. On the contrary, the President of the Poor Farm

Committee, who is also the President of the Board of Aldermen, has done his utmost to make it miserable for me, and has tried repeatedly to hurt the general discipline of the department. I believe that this is the first time in years that a Committee does not work in harmony with the Superintendent, and I hope that the next Committee will co-operate with me in the performance of my task.

Another Municipality with 20,000 population published its Annual Report some time ago, and not wishing to criticize this Town, and wishing only to show that Lewiston is well up in its percentage in cost; this Community expended \$14,120.81, and had receipts of \$8,265.12, leaving a net cost of \$5,855.69 as the amount paid by this City; showing with 18 inmates a net cost of 89c per capita per day; while Lewiston with \$15,086.24 total amount, with a population of 35,000 inhabitants, with an average of 70 inmates the year around, and at present with 82 inmates at the farm, shows cost per day per capita to be 59c; while in the other City just referred to the per capita cost is 89c.

Since the President of the Board of Aldermen made on several occasions the charges that he could not find Reports from this Department, while other Cities like Auburn, Bangor, Portland, and other Towns would from time to time publish such documents, he thought that Lewiston could not compare favorably with them, but the contrary is true, and Lewiston shows up better than any of them.

I am proud to present this Report to your Honorable Board, and trust that it will be favorably acted upon.

In conclusion I will State that some of the Municipal Officers, which served in the City Council this year, were very kind to me, and encouraged me on many occasions to keep on with my good work, and to those I am sincerely grateful.

Respectfully submitted,

ANTOINE LANDRY,

Supt. of Lewiston City Farm.

Report of Superintendant of Lightning Plant

Lewiston, Maine, March 9, 1931

To the Honorable Board of Mayor and Aldermen:

I herewith submit my report as Superintendent of the Municipal Lighting Plant for the year ending February 28, 1931.

We repaired Water Wheel including a New Spider.

We installed new set of teeth on Bevel Gear;
75 new lights on Streets and used 10,800 feet of W. P.
Wire.

Respectfully submitted,

ALFRED LAJOIE, Supt.

Report of the Highway Commission

Lewiston, Maine, March 1, 1931.

To the Honorable Mayor and Board of Aldermen,
Lewiston, Maine:

Gentlemen:—The following report of the Lewiston Highway Commission is respectfully submitted for the year ending February 28,th, 1931.

The following is the Personnel of the Board:

George A. Rivard, Chairman

Harry Stetson

Charles P. Lemaire

Albert G. Foss, Clerk

A. G. Roy, Superintendent

C. J. Cronin, Ass't.

The Commission would submit the following recommendations for the ensuing year:

Bituminous Macadam

Horton St. from Sabattus St. to Ash St.	2800 Yards
Union St. from Main St. to College St.	1650 Yards
Lowell St. from Middle St. to Hammond St.	2100 Yards
Whipple St. from Main St. to M. C. R. R.	1600 Yards
Holland St. from Main St. to College St.	1700 Yards

Cut Block Paving & Concrete

Park St. from Ash St. to Pine St.	1500 Yards
Middle St. from Main St. to M. C. R. R.	3200 Yards
Park St. from Main St. to Ash St.	3600 Yards
Lisbon St. from Main St to Ash St.	4500 Yards
Chapel St. from Main St. to Lowell St.	1600 Yards
Park St. from Pine St. to Chestnut St.	1600 Yards

Sewers

The completion of the Jepson Brook Sewer and would ask that the sum of \$20,000.00, Twenty Thousand Dollars, be appropriated for that purpose and \$8,000.00 Eight Thousand Dollars, for sewers in various parts of the city.

Would recommend the appropriation of \$10,000, Ten Thousand Dollars, for the purchase of Snow Removal Equipment.

Bridges

Both the North and South Bridges have been painted and repaired the past year and would ask for an appropriation of \$5,000, Five Thousand Dollars.

Sprinkling

Would recommend the sum of \$15,000.00, Fifteen Thousand Dollars, to be expended for Tarvia and other expenses.

For a more detailed report of the work done during the past year, would refer you to the "Report of the Superintendent".

Respectfully submitted,

A. G. FOSS, Clerk.

Report of the Superintendant of Streets

Lewiston, Maine, March 1, 1931.

To the Honorable Board of Highway Commissioners:

Gentlemen:—I herewith most respectfully submit my annual report as Superintendent of this Department for the year ending February 28th, 1931.

The following permanent work has been done during the year:

Permanent Streets

The following bituminous macadam has been laid on the several streets.

Bartlett St. from Birch to Ash St.	6000 Sq. Yds.
Webster St. from Sabattus St. to Pine St.	2700 Sq. Yds.
Leeds St. from Webster St. to Pine St.	950 Sq. Yds.
Central Ave. from Vale St. to Campus Ave.	2400 Sq. Yds.
Lisbon St. from Cedar St., to foot of West Rose Hill	10100 Sq. Yds.
(Recoated)	<hr/> 22,500 Sq. Yds.

Cut Block Paving

4,364 Sq. yards of Cut Block laid on Main St. in the car track.

Concrete Paving

17,540 Sq. yards of Concrete was laid on Main Street.

Sewers

775 feet of Segment Block 48" has been laid on the Jepson Brook Sewer and 850 feet of 42" on the same job and it is the wish of the Board to complete this job the coming season.

1550 feet of 10" and 12" Tile Pipe has been laid in different parts of the city, 40 new Catch Basins and 9 new Manholes have been constructed and several repaired.

Permanent Walks

2949 Sq. yards of Cement Walk have been laid
1327 Sq. yards of Tar Concrete have been laid
9346 Sq. yards of Tar Concrete have been recoated
8645 feet of Concrete Curbing laid and a large amount of Granite Curbing reset and about a mile of Brick Walk relaid.

Third Class Road

3000 feet of third class road were constructed on the Webster Road and about 8 miles of Gravel Road were made in various parts of the city.

Sprinkling

59,522 Gallons of Tarvia has been spread on the Gravel Streets.

Bridges

The North and South Bridges have been painted and repaired the past year. The Bridge Street Bridge and the Riverside Street Bridge will need quite extensive repairs the coming season. All of the smaller bridges are in good condition.

I would recommend the following amounts to be expended in the Department the coming year:

Highways	\$110,000.00
Permanent Streets	20,000.00
Sewers	28,000.00
Permanent Walks	10,000.00
Bridges	5,000.00
Sprinkling	15,000.00
Total:	<hr/> \$188,000.00
City State Aid Appropriation	\$27,280.00
State's Share	32,736.00
	<hr/> \$60,016.00

Remarks

The shade trees in different parts of the city were trimmed and all trees that were dead were removed in a proper manner, that is, taken up, roots and all.

In closing this report, I would extend thanks to the Board of Highway Commission for advice given during the year.

Respectfully submitted,

A. G. ROY, Supt.

Report of Health Officer

Lewiston, Maine, March 1, 1931.

To the Honorable Mayor & Board of Aldermen:—

We wish to submit a brief report of the activities of the Health Department, for the fiscal year 1929-1930.

Monthly reports of activities of this Department have been submitted and are available at any time.

During the year 1930, the Health Officer, Robert J. Wiseman, Jr. M. D. was granted fifteen weeks' leave of absence, of which three weeks were spent at Massachusetts Institute of Technology attending a special course for Health Officers and the other twelve weeks were spent in the South Department of the Boston City Hospital, a hospital set aside to take care of contagious cases for citizens of Greater Boston. He studied under Dr. Place, a national authority on contagious diseases.

During his absence, the Health Department was in charge of a very able man, Dr. Romeo A. Beliveau.

No change in the personnel has occurred during the year.

Supervision of Contagious Diseases

A thorough investigation of the major contagious disease cases reported is carried out by the Department with a history of each patient obtained, so that the source of infection may be found.

By this investigation, the public library and the school authorities are notified, and frequently the spread of the disease is checked among school children.

Physicians are materially assisted as they are furnished free with Diphtheria outfits, Sputum bottles, Wasserman outfits and Typhoid widals.

The following cases of communicable diseases have been reported during the year:

Chickenpox: 51; Diphtheria: 50 cases and 1 death; Influenza: 1; Lethargic Encephalitis: 1; Measles: 4; Meningococcus Meningitis: 2; Mumps: 21; Pneumonia, all forms, 79 cases and 62 deaths; Poliomyelitis: 1;

Scarlet Fever: 38 cases and 1 death; Tuberculosis, respiratory system: 20 cases and 16 deaths; Tuberculosis, other forms: 4 cases and 6 deaths; Typhoid Fever: 13 cases and 2 deaths; Undulant Fever: 1; Whooping Cough: 90.

We have had epidemics which were started by carriers in a large number of small children susceptible to contagious diseases in some of our local children's homes.

General Sanitation

The water supply of the City of Lewiston during the year, has been in good condition according to the laboratory reports from the State. At certain intervals, samples are being sent to the State Laboratory for examination.

Thruout the year the Health Department received complaints about the dumps in the City. This matter was taken up with the Mayor and different departments, and an agreement was reached whereby the nuisance would be taken care of by the Highway and Fire Departments.

An effort is made by this Department to have all complaints investigated and nuisances abated.

Plumbing Inspection

An application is made to the Department by each local plumber and a permit granted for each plumbing job done in the City. Mr. Fred G. Hayes, the Plumbing Inspector, investigates and approves said work and reports to this Department.

195 applications were filed at the office.

215 approvals were given for work done.

645 calls were made pertaining to plumbing conditions.

Sanitary Inspection

Mr. J. Clod LeProhon is in charge of this phase of the work in the Department. His duties consist in inspecting public establishments and seeing that sanitary conditions are acquired and maintained.

During the year he made two thousand three hundred and seventy-two (2,372) calls including bakeries, barber shops, beauty parlors, clubs, dairies, drug stores, dumps, fairs, fire station, fish markets, frankfort stands, fruit stores, groceries & confectioneries, hotels and lodging houses, laundries, manufacturing plants, pool rooms and billiards, restaurants, print shops, stores in general and various other places.

Milk Testing

In charge of Mr. A. B. Andrews, whose monthly report appears in the newspapers regularly, and who examines milk and cream from each dealer who enters the City of Lewiston and sees that city standards are maintained in butter fat and total solids also specific gravity. Follow-up work on those who have low standards is done by this Department.

Laboratory

Twenty-two (22) swabs for Diphtheria.

One hundred and forty-one (141) smears for Gonorrhea and twenty-one (21) sputums for Tuberculosis were done at our Department laboratory during the year 1930.

Vital Statistics

The registration of births and deaths is very important as Vital Statistics are the "Barometer of Health" by which the Health Officer carries on his work.

Number of births for 1930	866
Number of deaths for 1930	592
Infant mortality under 1 year	95
Stillbirths	23

Average general death rate for 1930:—16.4 per 1,000 population based on last census showing Lewiston 34,939.

Infant mortality rate for 1930:—91.2 per 1,000 births; each rate being the lowest on record at our office, since the Health Department is in existence.

Pre-School & School Children Hygiene

An intensive educational campaign was carried out

in 1930 endeavoring to immunize our pre-school and school children against Diphtheria, and to vaccinate them against Smallpox.

Number of children immunized against diphtheria: 888

Number of children vaccinated against smallpox: 383

Schick Tests done: 85

Dick Tests for Scarlet Fever: 101

Following is a report from the Municipal Nurse, Mrs. Lea M. Simpson, R. N. from January 1, 1930 to March 1, 1931.

Number of calls made on tuberculous patients: 35

No. of State investigations made on T. B. patients: 28

No. of patients outfitted for Sanatorium: 10

No. of children taken to Doctor from School or Office: 28

No. of children taken to Dentist or Red Cross: 44

No. of children taken to local Hospitals: 3

Investigations for contagious diseases: 8

Inspections of schools and grounds: 5

Dental clinics assisted: 11

First-aid treatments given: 15

No. of physical inspections: 2294

No. of children found with defective teeth: 392

No. of " found with enlarged or diseased tonsils: 252

No. of children found with defective visions: 89

No. of children inspected for rash & cleanliness: 2419

Children who had last year's and this year's dental corrections done: 390

Children who had tonsils treated or removed: 124

Number of visions corrected: 43

Calls made on parents about corrections: 127

Notices sent: 550

Children sent out of school suspicious of contagious diseases: 57

Excluded from school for uncleanness: 39

Excluded from school for skin diseases: 68

593 children were immunized against diphtheria in the schools.

Talks are also given with and demonstrations to school children.

Venereal Disease Clinic

People suffering from Venereal Diseases and who are unable to pay are sent by the Health Officer to the local clinic where they receive treatment.

Recommendations

1. An isolation hospital, where it could be possible to remove patients affected with contagious diseases from lodging houses, tubercular cases that are on the waiting list to enter the Sanatorium, who in the meantime are liable to transmit the disease to the family or to the public,—and also persons affected with venereal diseases that are unable to work and are liable to infect others.

The advantages of an isolation hospital are: (a) The financial saving to the City, who is paying for board and room and care of those patients. (b) The prevention of spreading those diseases, by being under strict quarantine. In large families, the patient would be removed and thus allow other children to attend school.

2. A ventilation system at the City Hall Auditorium, where very unsanitary conditions are prevailing during boxing matches when the smoke is so very dense. This system would cost approximately \$200.00 and would be well worth the expense, especially since the rental to the Boxing Promoters brings a large share of fees to this City.

3. During the year 1930—three deaths have occurred due to lack of flue outlets in bath rooms, where there are gas heaters. We have no local regulation taking care of this important matter.

4. A school physician to make a thorough physical examination of each child and report sent to family.

5. Again we are asking for the cooperation of the City government whereby steps could be taken to have a bacteria count done on the milk supply entering into the City of Lewiston.

The quality of milk can be easily found out by the number of bacteria found present in the milk.

I wish to take this opportunity to thank His Honor, the Mayor and members of the Retiring Board, also the members of the new government for their cooperation with this Department, also the public at large for their attempts and cooperation in trying to make Lewiston a healthy city.

Yours truly,

ROBERT J. WISEMAN, Jr. M. D.

Health Officer.

Tax Collector's Report

Lewiston, Maine, February 28, 1931.

The Honorable Board of Mayor and Aldermen:

Gentlemen:—I herewith most respectfully submit my report for the year ending February 28th, 1931, which I am sure will meet with your approval, if you take in consideration the business depression and unemployment condition that exist in this City the past year, which reflected heavily on this department.

Report of the Sealer of Weights & Measures

Lewiston, Maine, March 14, 1931.

To the Honorable Mayor and Board of
Aldermen of the City of Lewiston:

Gentlemen:—At the expiration of one-half year in the office of sealer of weights and measures for the City of Lewiston, it is a pleasure to be able to report substantial progress in the work of this department.

No report had been made by my predecessors in office for a number of years, and the equipment for testing weights and measures in use by the merchants of the City, was limited to four 50 pound weights and a set of small weights, inadequate for checking and examining any except the smallest scales, and no equipment was provided for testing linear measures and dry and liquid measures, including the very important method of testing gasoline and oil pumps. Through the cooperation of the Mayor and Board of Aldermen, and with the assistance of the State Department of Agriculture, the City has acquired for the use of its sealer a full set of weights for testing computing and other small scales, for checking linear and dry measures, and for checking the accuracy of gasoline and oil pumps.

In addition, the City has secured seals and tags to be affixed to measures after examination and correction by your sealer. This equipment has made, and will make, possible a great amount of work in investigating and correcting the devices used by our merchants in the handling and sale of all commodities with the exception of those sold by number; but it is to be hoped, that additions to the equipment will be made at an early date so that complete supervision may be had of all measuring devices. It is very important to the people that this supervision should exist. In my opinion, approximately forty per cent of the scales and pumps are delivering either short or long weights, usually the former. This is not due to any great extent to fraudulent practices but

s in very large measure due to the fact that modern scales and pumps are delicate and complex machines, expensive, and impossible for the average person to adjust without training. Many of these machines are old but kept in use owing to the expense of replacement.

Most of them are in the hands of persons who take their accuracy for granted. All of them need occasional inspection if the purchasing public is to be protected and obtain full value for its money. The present administration has recognized the need for activity in this department, and has taken important steps to secure beneficial action. It is desirable that this work be not allowed to drop again to the zero point.

I append a summary of the work done since my appointment, August 19, 1930.

	Tested	Condemned
Scales	401	114
Weights	104	4
Gasoline Pumps	186	51

Respectfully submitted,

VIRGILE HOULE,

Year ending February 28, 1931

ALPHONSE J. BERNARD,

DANIEL McCARTHY,

Engineers.

Report of the Superintendant of Water Works

Lewiston, Maine, Feb. 28, 1931.

To the Honorable Board of Water Commissioners,
Gentlemen:—

I have the honor to present to you my report as Superintendent of the Water Department for the fiscal year ending Feb. 28, 1931, this being the 51st annual report.

Construction

Twelve extensions have been made during the year at a cost of \$15,333.08, laying 9,966 feet of pipe as follows:

Gagne Avenue, 520 feet of 2" galv. pipe

Upper Main Street, 6,836 feet of 6" C. I. pipe

Upper Main Street, 525 feet of 2" galv. pipe

Webber Avenue, 324 feet of 6" C. I. pipe

Thorne's Corner, (McNamaras), 864 feet of 6" C. I. pipe

Franklin Street, 144 feet of 6" C. I. pipe

Therrien Street, 52 feet of 2" galv. pipe

Fairlawn Avenue, 11 feet of 2" galv. pipe

Dion Street, 140 feet of 2" galv. pipe

Franklin Street, 55 feet of 1" galv. pipe

Jones Avenue, 320 feet of 2" galv. pipe

Louise Avenue, 175 feet of 1" galv. pipe.

Six new hydrants were installed on Upper Main Street and one at Thorne's Corner, (McNamara Farms so called).

New Services and Relays

68 new services; 98 relay of services, and three sprinkler services were put in. There were also 29 services cleaned.

Streets Relayed

Main Street, from Bates to Mountain Avenue.

Middle St., from Main St. to Maine Central R. R.

Park Street, from Pine to Ash Street.

Respectfully yours,

FRED G. HAYES, Supt.
